**TIME OF THE ALMANACK.**

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude 37° 32' 21'' N., and in Longitude 77° 25' 35'' W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made necessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change, so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of longitude makes a difference of 4 minutes, and that in this latitude a degree of longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east, and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

“ 8 and 10 “ .....	Rainy if S. or S. W..	Rain or snow if S., or S. W.
“ 10 and midnight.....	Fair .. .....	Fair and frosty.

## OBSERVATIONS.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.

2. The space for this calculation occupies from ten at night till two next morn-  
ing.

3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.

4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.

5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.

3. It shall be unlawful to shoot or otherwise hunt any wild fowl or any game birds or game animals protected by the laws of this State later than an half an hour after sunset or earlier than an half an hour before sunrise, or to shoot or hunt any game in this State on Sunday.

6. Nothing in this section shall be construed to refer to the bird known as sora.

Sec. 2070 (b). Game wardens, their appointment, duties, etc.—1. It shall be the duty of the city or corporation court of the cities, or the judges thereof in vacation, on the application of five resident freeholders of any city to appoint two suitable persons in such city as game wardens, whose jurisdiction shall be confined to their respective cities and where the board of supervisors of any county shall, by resolution of record in the minutes of said board, request the judge of the circuit court of said county so to do; the said judge shall, upon the application of five resident freeholders of any magisterial district in said county appoint one suitable person in such magisterial district as game warden, whose jurisdiction shall be confined to said magisterial district; when the said appointment is made by the judge in vacation, he shall certify the same to the clerk of his court, who shall enter the same in the order book of his court in the same manner as if made in term.

2. The said wardens shall hold office for the term of four years from the date of their appointment, unless sooner removed from office, and shall qualify according to law.

No game warden shall have any right under this act to go upon the land of another person without the consent of such other person until and unless such game warden shall have procured a search warrant in conformity with the provisions of subsection five of this section, or shall have a warrant

They shall enforce the statutes of this State and of the United States for the protection of game or other animals or birds protected by law, and render report to the Board of Fisheries of all prosecutions, and the said Board of Fisheries shall publish the same in their annual report as information. The commanders of the said oyster police boats shall receive no additional compensation for the performance of these duties, except that in cases of conviction they may receive the fee provided for in subsection eight of this section.

All guns, gunning or hunting appliances found in such search shall be seized by said warden or other officer, and held subject to the payment of the fine prescribed by law for the offense charged and the cost of prosecution. If any of the articles so found be such as are not authorized by law they shall, upon the order of the court, judge or justice having jurisdiction, be destroyed, and all other of such articles shall be sold at public auction after the lapse of twenty days from the time of seizure, and after such notice as the court, judge or justice having jurisdiction, may prescribe, unless the reputed owner appears and acquits himself of the charge or pay the fine that may be imposed by the court, judge or justice.

7. Any person or persons interfering with any of said game wardens in the discharge of their duty, or resisting lawful arrest, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be fined not less than five dollars nor more than fifty dollars.

8. All fines and penalties imposed and collected under the provisions of this chapter shall be paid to the Commonwealth, and in addition to said fines and penalties, there shall be assessed against the offender in every case of conviction under the provisions of this chapter a fee of two dollars and fifty cents, which shall be collected as fines are collected under the general provisions of law and be paid to the warden who shall secure the conviction.

9. If any warden appointed under this section shall refuse or wilfully neglect to prosecute any person violating any of its provisions, or any of the laws of this State relating to wild water fowl, game birds or game animals, or song or insectivorous birds, his appointment shall be revoked by the court having jurisdiction, and such warden shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined not exceeding twenty dollars, and the vacancy thus created shall be filled by the court or judge in vacation.

10. said counties shall appoint, on the recommendation of the Eastern Shore Game Protective Association, the game wardens of the said counties, who shall make report at regular intervals to said association, as its laws shall provide, and the said clerks of the courts of said counties upon the order of said association, shall distribute among the game wardens for said counties, or as may have been agreed upon by contract between the said association and said wardens, or in proportion to the services, which, in their judgment, have been rendered by them, respectively, the fund arising from the license of non-residents provided for in this chapter, or so much thereof as may be necessary. Should there be any surplus remaining after providing an efficient system of game protection in said counties from the license of non-residents above mentioned, said association may use it for restocking said counties with game. The clerk shall pay to the treasurer of said association such sums as may be thus expended, paying any amounts not needed for the purpose above mentioned to the Auditor of Public Accounts, as provided in section twenty hundred and seventy c.

Section 2070 (c). Non-residents to obtain hunting licenses: when and how game may be exported, etcetera.—1. It shall be unlawful for any person, not a resident of this State, to hunt or kill wild water fowl, wild turkeys, pheasants or grouse, woodcock, partridges, quail or other game birds, or deer, within this State until he shall have first secured a hunting license as hereinafter provided; provided, however, that the non-resident child of resident owners of land in this State, shall be allowed to hunt on the lands of his parents as though he were a resident of this State, and the non-resident guest of a resident land owner shall be allowed to hunt on the lands of his host as though he were a resident of this State, when accompanied by said host, or a member of his host's family; provided, said host receives no compensation directly or indirectly from said guest.

2. Upon the personal application of any non-resident to the clerk of the circuit court of any county in which he first begins to hunt, such clerk shall, upon the payment of ten dollars, issue to such non-resident a hunting license, using a form to be prescribed by the Auditor of Public Accounts for that purpose, entitling him to hunt and kill wild water fowl, deer, wild turkeys, pheasants or grouse, woodcock, partridges, quail, and other game birds during the open season in the six months next following, and subject to any restrictions now existing or which may hereafter be imposed upon residents of this State. The clerk shall retain fifty cents as his fee for issuing such license, and the residue he shall account for to the Auditor of Public Accounts, unless otherwise provided by law. Such license shall not be transferable.

3. It shall be unlawful, except as hereinafter provided, to ship or transport, or to cause to be shipped or transported, from this State, whether alive or dead, wild water fowl, wild turkeys, pheasants or grouse, woodcock, partridges, quail, or other game birds, or any deer or vension, killed or captured within this State, nor shall the same be killed, captured or possessed with intent to ship or transport from this State.

4. Any person authorized to hunt under the laws of this State may, during the open season, take with him out of the State, either in his personal possession or as his baggage, on the same conveyance with him, not in a closed package, but exposed to view, not exceeding thirty wild water fowl, fifty quail or partridges, ten pheasants or grouse, three wild turkeys, one deer, or plovers, snipe, sand-pipers, willets, tattlers or curlew, not exceeding twenty-five of each or not exceeding one hundred in the aggregate, when killed or captured by himself; provided, the same shall be plainly labelled or tagged with the name and address of such person: and any citizen of this State may, during the open season, ship or have transported from this State, as a gift and not for market or sale, so stating on the shipping tag, one deer during the season, and not exceeding three wild turkeys, six pheasants, twelve wild water fowl, eighteen partridges or quail; provided, that such game shall be shipped exposed to public view and unconcealed, and each parcel or package shall be plainly labelled or tagged with the name and address of the donor and of the donee, and the number of each of such game so shipped. This section shall not apply to sora or rabbits or hares.

5. It shall be deemed a violation of this act for any person to deliver any of the game herein mentioned to any common carrier or person for shipment or transportation out of the State, or for any common carrier or person to carry or transport or receive for shipment or transportation any such game in any other manner than is provided in this section.

### **UNITED STATES POSTAGE LAWS.**

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

#### **First-Class Matter.**

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter under class three.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents. Nothing must be added or attached to a postal card, except that a printed address slip may be pasted on the address or message side. The addition of anything else subjects the card to letter postage. A card containing any offensive or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be conclusively a part of the address and therefore permissible. Cards that have been spoiled in printing or otherwise will be redeemed at 75 per cent. of face value. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each. Cards must not exceed the size of  $3\frac{1}{2}$  by  $5\frac{1}{2}$  inches or be smaller than  $2\frac{1}{2}$  by  $4\frac{1}{2}$  inches in dimensions. Their quality must be substantially that of the government postal cards and weigh about six pounds three ounces to the thousand. Their color may be white, cream, light gray, or light buff. The cards must bear on the address side, in print, the words, "Post Card—Authorized by Act of Congress of May 19, 1898." When prepared for sale they should also bear in the upper right-hand corner of the address side a diagram with the words, "Place a one-cent stamp here;" and in the lower left-hand corner the printed words, "This side is exclusively for the address."

The message on the cards may be in writing or print, and there may also appear on the message side advertisements, illustrations, or other matter, printed either in black or colors. And there must be attached to every card mailed a one-cent adhesive postage stamp. These cards cannot be mailed to foreign countries, except at the letter rate of postage.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. An ordinary ten-cent stamp affixed to a letter will not entitle it to special delivery. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Prepaid letters will be forwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

**Second-Class Matter.**

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or newsagency, to actual subscribers or news agents, and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the bulletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Such Christmas, New Years, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery ten-cent stamps are affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

**Third-Class Matter.**

Mail matter of the third-class includes printed books, pamphlets, engravings circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

## COMMISSION MERCHANTS

Chickens, Eggs, Fruits Produce and all Farm Products sold at highest market price. Quick returns. Write for quotations.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery stamps are affixed in addition to the regular postage.

Upon matter of the third-class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

### Fourth-Class Matter.

Fourth-class matter is all mailable matter not included in the three preceding classes, which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, one cent for each ounce or fraction thereof (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is one cent for each two ounces or fraction thereof.) This matter must be fully prepaid, or it will not be forwarded. The affixing of special delivery ten-cent stamps in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad odor will not be forwarded in any case.

Firearms may only be sent in detached parts.

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tight-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is not exceeding four ounces, liquid measure.

Limit of weight of fourth-class matter (excepting liquids), four pounds.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering postmaster may also be written asking him to return the package if not delivered.

### Registration.

All kinds of postal matter may be registered at the rate of eight cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed \$25.00 for any one registered piece or the actual value of the piece if it is less than \$25.00—shall be paid for the loss of first-class registered matter.

### Domestic Money Orders.

Domestic money orders are issued by money-order postoffices for any amount up to \$100, at the following rates:

For sums not exceeding \$2.50, 3 cents; over \$2.50, to \$5, five cents; over \$5 to \$10, eight cents; over \$10 to \$20, ten cents; over \$20 to \$30, twelve cents; over \$30 to \$40, fifteen cents; over \$40 to \$50, eighteen cents; over \$50 to \$60, twenty cents; over \$60 to \$75, twenty-five cents; over \$75 to \$100, thirty cents.

### Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.

2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.

3. All periodicals sent to subscribers within the county where printed.

4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.

5. The Vice-President, Members and Members-elect, and Delegates and Delegates-elect to Congress may frank any mail matter, not over two ounces in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

### TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude 37° 32' 21" N., and in Longitude 77° 25' 35" W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made necessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change, so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of longitude makes a difference of 4 minutes, and that in this latitude a degree of longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east, and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

" 8 and 10 ".....	Rainy if S. or S. W..	Rain or snow if S., or S. W.
" 10 and midnight.....	Fair .....	Fair and frosty.

**OBSERVATIONS.**

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.

2. The space for this calculation occupies from ten at night till two next morning.

3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.

4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.

5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.

P. S. Gowans gave a reason for the writing of the following letters:

We used Gowans Preparation in our family in a serious case of Pneumonia with gratifying results. I take pleasure in making this statement and commending it to the public.

REV. T. A. SMOOT

Pastor Epworth Church, Norfolk, Va.

I have been in the retail drug business for twenty-five years, during which time I have sold, as well as used, quite a lot of different medicines. I must say, however, that Gowans Preparation is the best remedy I have ever used or sold for the use for which it is recommended. I feel it my duty as well as my pleasure to recommend it.

E. A. MORRISON, Druggist, Petersburg, Va.

I have used Gowans Preparation in my family and have found it very satisfactory indeed. It is one of my best sellers.

B. H. GORRELL, Druggist, Lexington, Va.

6. All game animals, wild water fowl and birds, protected by law, or parts thereof, found under such warrant, shall be seized by the warden or other officer making the search, and shall be disposed of as the court, judge or justice having jurisdiction may direct. All guns, gunning or hunting appliances found in such search shall be seized by said warden or other officer, and held subject to the payment of the fine prescribed by law for the offense charged and the cost of prosecution. If any of the articles so found be such as are not authorized by law they shall, upon the order of the court, judge or justice having jurisdiction, be destroyed, and all other of such articles shall be sold at public auction after the lapse of twenty days from the time of seizure, and after such notice as the court, judge or justice having jurisdiction, may prescribe, unless the reputed owner appears and acquits himself of the charge or pay the fine that may be imposed by the court, judge or justice.

7. Any person or persons interfering with any of said game wardens in the discharge of their duty, or resisting lawful arrest, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be fined not less than five dollars nor more than fifty dollars.

All fines and penalties imposed and collected under the provisions of this chapter shall be paid to the Commonwealth, and in addition to said fines and penalties, there shall be assessed against the offender in every case of conviction under the provisions of this chapter a fee of two dollars and fifty cents, which shall be collected as fines are collected under the general provisions of law and be paid to the warden who shall secure the conviction.

The clerk shall retain fifty cents as his fee for issuing such license, and the residue he shall account for to the Auditor of Public Accounts, unless otherwise provided by law. Such license shall not be transferable.

3. It shall be unlawful, except as hereinafter provided, to ship or transport, or to cause to be shipped or transported, from this State, whether alive or dead, wild water fowl, wild turkeys, pheasants or grouse, woodcock, partridges, quail, or other game birds, or any deer or vension, killed or captured within this State, nor shall the same be killed, captured or possessed with intent to ship or transport from this State.

Nor shall any person shoot at or kill wild fowl except from the land, or from batteries, sink boxes, points, or blinds, in the said waters thereof: provided, however, that any person who may have crippled ducks, geese, or swan over his own decoys may reshoot and capture such game from boats immediately after same shall have been shot down. Nor shall any person shoot at or kill wild fowl on Wednesday and Saturday of each and every week, either on or from the land, or on or from the said waters of Back Bay and its tributaries.

2. It shall not be lawful for any person to use deck or cabin boats, float houses, rafts or platforms built over the water for the purpose of gunning, shooting, or hunting in the waters of Back Bay or its tributaries.

3. It shall be unlawful to shoot over decoys in the waters of Back Bay or its tributaries between the first day of April and the twentieth day of October.

4. It shall not be lawful for non-residents to shoot at or kill wild fowl at any time or in any manner for profit or sale, either directly or indirectly unless they own or rent shores on the said waters of Back bay; in which event they shall conform and be subject to all the provisions of this act.

5. All persons offending against any of the provisions of this act shall, upon conviction thereof, be deemed guilty of a misdemeanor, and fined not less than fifty dollars nor more than one hundred and fifty dollars, or shall be imprisoned in the county jail of Princess Anne county for a period not less than thirty days and not exceeding ninety days, or be subject to both fine and imprisonment, as herein provided. One half of the fine so imposed shall go to the informer; and, moreover, all guns, skiffs, floats, batteries, sink boxes, blinds, or other devices used in the commission of the offense shall be sold by order of the county court of Princess Anne county, and the proceeds thereof forfeited to the Commonwealth.

6. Provided, that nothing in this act shall be so construed as to prohibit shooting a duck known as a "peeler," or "blue peter," in any way after the first day of February of each year.

7. All acts and parts of acts inconsistent or in conflict with this act are hereby repealed.

8. This act shall be in force on and after its passage.

Chapter 254, approved March 15, 1906.

Be it enacted by the General Assembly of Virginia, That whoever keeps or uses a live pigeon, fowl or other bird for the purpose of a target, or to shoot at either for amusement or a test of skill in marksmanship, or shoot at a bird kept or used as aforesaid, or is a party to such shooting; or let any building, room, field or premises or knowingly permits the use thereof for the purpose of such shooting, shall be punished by a fine of not more than \$50 or by imprisonment for not more than 30 days, or by both fine and imprisonment. All acts repealed.

Halifax appears to be the only county having a "possum" law; the open season is fixed from October 15th to February 1st.

Partridges are not permitted to be carried out of some of the counties. Page, Rappahannock, Sussex and Henry, have a county non-export law, and there may be others.

## UNITED STATES POSTAGE LAWS.

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

### First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter under class three.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents. Nothing must be added or attached to a postal card, except that a printed address slip may be pasted on the address or message side. The addition of anything else subjects the card to letter postage. A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be conclusively a part of the address and therefore permissible. Cards that have been spoiled in printing or otherwise will be redeemed at 75 per cent. of face value. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each. Cards must not exceed the size of  $3\frac{1}{2}$  by  $5\frac{1}{2}$  inches or be smaller than  $2\frac{1}{2}$  by  $4\frac{1}{2}$  inches in dimensions. Their quality must be substantially that of the government postal cards and weigh about six pounds three ounces to the thousand. Their color may be white, cream, light gray, or light buff. The cards must bear on the address side, in print, the words, "Post Card—Authorized by Act of Congress of May 19, 1898." When prepared for sale they should also bear in the upper right-hand corner of the address side a diagram with the words, "Place a one-cent stamp here;" and in the lower left-hand corner the printed words, "This side is exclusively for the address."

The message on the cards may be in writing or print, and there may also appear on the message side advertisements, illustrations, or other matter, printed either in black or colors. And there must be attached to every card mailed a one-cent adhesive postage stamp. These cards cannot be mailed to foreign countries, except at the letter rate of postage.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. An ordinary ten-cent stamp affixed to a letter will not entitle it to special delivery. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Prepaid letters will be forwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

## Second-Class Matter.

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents, and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the bulletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Such Christmas, New Years, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery ten-cent stamps are affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

## Third-Class Matter.

Mail matter of the third-class includes printed books, pamphlets, engravings circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery stamps are affixed in addition to the regular postage.

Upon matter of the third-class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

#### **Fourth-Class Matter.**

Fourth-class matter is all mailable matter not included in the three preceding classes, which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, one cent for each ounce or fraction thereof (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is one cent for each two ounces or fraction thereof.) This matter must be fully prepaid, or it will not be forwarded. The affixing of special delivery ten-cent stamps in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad odor will not be forwarded in any case.

Firearms may only be sent in detached parts.

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tight-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is not exceeding four ounces, liquid measure.

Limit of weight of fourth-class matter (excepting liquids), four pounds.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering postmaster may also be written asking him to return the package if not delivered.

## Registration.

All kinds of postal matter may be registered at the rate of eight cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed \$25.00 for any one registered piece or the actual value of the piece if it is less than \$25.00—shall be paid for the loss of first-class registered matter.

## Domestic Money Orders.

Domestic money orders are issued by money-order postoffices for any amount up to \$100, at the following rates:

For sums not exceeding \$2.50, 3 cents; over \$2.50, to \$5, five cents; over \$5 to \$10, eight cents; over \$10 to \$20, ten cents; over \$20 to \$30, twelve cents; over \$30 to \$40, fifteen cents; over \$40 to \$50, eighteen cents; over \$50 to \$60, twenty cents; over \$60 to \$75, twenty-five cents; over \$75 to \$100, thirty cents.

## Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.

2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.

3. All periodicals sent to subscribers within the county where printed.

4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.

5. The Vice-President, Members and Members-elect, and Delegates and Delegates-elect to Congress may frank any mail matter, not over two ounces in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

### TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude  $37^{\circ} 32' 21''$  N., and in Longitude  $77^{\circ} 25' 35''$  W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made necessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change, so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of longitude makes a difference of 4 minutes, and that in this latitude a degree of longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east, and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

## Table for Foretelling the Weather Throughout Each Year.

IF THE NEW MOON, FIRST QUARTER, FULL MOON OR LAST QUARTER, HAPPENS—	IN SUMMER.	IN WINTER.
Between midnight and 2 o'clock...	Fair.....	Frost unless wind S. W.
" 2 and 4 morning.....	Cold and showers...	Snow and stormy.
" 4 and 6 ".....	Rain.....	Rain.
" 6 and 8 ".....	Wind and rain .....	Stormy.
" 8 and 10 ".....	Changeable.....	Cold rain if wind W., snow if E.
" 10 and 2 ".....	Frequent showers...	Cold and high wind.
" 12 and 2 afternoon.....	Very rainy .....	Snow or rain.
" 2 and 4 ".....	Changeable.....	Fair and mild.
" 4 and 6 ".....	Fair.....	Fair.
" 6 and 8 ".....	Fair if wind N. E...	Fair and frosty if wind N., or N. E.
" 8 and 10 ".....	Rainy if S. or S. W..	Rain or snow if S., or S. W.
" 10 and midnight.....	Fair.....	Fair and frosty.

## OBSERVATIONS.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.
2. The space for this calculation occupies from ten at night till two next morning.
3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.
4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.
5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.

Section 2070 (a). When and how unlawful to hunt, et cetera, and power of boards of supervisors.—1. It shall be unlawful for any person to shoot at, kill or capture any wild water fowl or wild turkey at any time during the night in this State, or at any time to capture them in traps or nets, or other contrivances, or to use reflectors or other lights or sneak boats or artificial lights in detecting or capturing or shooting of wild fowl or game of any kind, or to hunt or shoot muskrats at night with a light in the Tidewater section of the State. All sneak boats, nets, traps, or reflectors, or other unlawful appliances so used or found in the possession of any person, shall be seized by any game warden or other officer and held by him as evidence, but the same shall not be destroyed except by the order of the court or justice having jurisdiction, upon warrants duly issued, which said court or justice shall upon satisfactory evidence of the guilt of the party or of the unlawful nature of the article seized, order the same to be destroyed. The possession of any said guns, sneak boats, nets, traps, reflectors, or other unlawful appliances shall be prima facie evidence of the guilt of the person in whose possession they are found.

2. It shall be unlawful for any person to hunt, kill, or capture in any manner or have in possession any wild turkeys, pheasants, grouse, quail partridges or woodcock east of the Blue Ridge Mountains between February the first and November the first, and west of the Blue Ridge Mountains between December the thirty-first and November the first, or to track or hunt any of them in the snow, or to trap or net them at any time, or buy, offer for sale or sell at any time, any robins, grouse, pheasants, quail or partridges or woodcock, or to destroy their nests, eggs or young at any time, or kill, chase or capture, or buy, offer for sale, or have in possession any wild deer between December the first and September the first, or to track or hunt them in snow, or to kill or capture, or buy, offer for

3. It shall be unlawful to shoot or otherwise hunt any wild fowl or any game birds or game animals protected by the laws of this State later than an half an hour after sunset or earlier than an half an hour before sunrise, or to shoot or hunt any game in this State on Sunday.

4. Any person violating any of the provisions of this section shall be deemed guilty of a misdemeanor, and shall be punished by a fine of not less than five nor more than fifty dollars, or imprisoned in jail for not more than thirty days, or both fined and imprisoned, at the discretion of the justice or jury trying the case.

5. (As amended by act approved March 14, 1912), The board of supervisors of any county shall have the power to shorten the open season in their said county, and by regulations not inconsistent with the provisions of this section may further protect the game within their said county, and may include in such protection other game not specifically mentioned in this section; provided, that it shall be lawful to ship out of the State, wild water fowl legally killed in the counties of Accomac, Northampton, Norfolk and Princess Anne. And wild water fowl may be shot at night in the counties of Essex, Richmond and Westmoreland. But in shooting any game in this State no gun larger than a ten bore may be used, this to be shot from the shoulder, and no person shall be allowed to shoot more than one gun at a time or to shoot a battery of guns; provided, this act shall not apply to Back bay or its tributaries, in Princess Anne county; and provided, further, it shall be lawful to ship within or without the State wild water fowl legally killed.

Sec. 2070 (b). Game wardens, their appointment, duties, etc.—1. It shall be the duty of the city or corporation court of the State, or the judges thereof in vacation, on the application of five resident freeholders of any city to appoint two suitable persons in such city as game wardens, whose jurisdiction shall be confined to their respective cities, and it shall be the duty of the circuit courts of the several counties of the State, or the judge thereof in vacation, upon application of five resident freeholders, to appoint one or more suitable persons as game wardens, whose jurisdiction shall be confined to their several magisterial districts. When the said appointment is made by the judge thereof in vacation, he shall certify the same to the clerk of his court, who shall enter the same in the order book of his court as if made in term,

2. This act shall not be construed as conflicting with any of the other provisions of section two thousand and seventy-b, but all acts or part of acts in conflict with this act be, and the same are hereby, repealed.

3. The said wardens shall have power and it shall be their duty, to arrest any person detected by them in the act of violating any of the aforesaid laws, or any person against whom a warrant shall have been duly issued upon the information of any other person for such violation, and forthwith to carry such person before a justice or court having jurisdiction over the offence, who shall proceed without unreasonable delay to hear, try and determine the charge against such person. and unless such game warden shall have procured a search warrant in conformity with the provisions of subsection five of this section, or shall have a warrant for the arrest of some person thereon: provided, however, that such game warden may, without a warrant, arrest any person who violates any of the provisions of this chapter in the presence of such game warden, and should any person violate any of the provisions of this chapter in the presence of such game warden, such game warden may lawfully follow such person anywhere in the effort to arrest.

4. The several commanders of the oyster police boats of this Commonwealth are hereby constituted game wardens of this State, whose jurisdiction as such wardens shall extend over the lands and waters of this Commonwealth within their several jurisdictions as commanders. They shall enforce the statutes of this State and of the United States for the protection of game or other animals or birds protected by law, and render report to the Board of Fisheries of all prosecutions, and the said Board of Fisheries shall publish the same in their annual report as information. The commanders of the said oyster police boats shall receive no additional compensation for the performance of these duties, except that in cases of conviction they may receive the fee provided for in subsection eight of this section.

5. Any court, judge or justice having jurisdiction over the offense, if satisfied upon affidavit that there is reasonable cause to believe that any wild water fowl, game birds, game animals or song or insectivorous birds, or parts thereof caught, taken, killed, shipped, or about to be shipped, or in transit, contrary to the laws of this State, or of the United States, are being concealed or stored in any place, shall issue a search warrant and cause search therefor to be made in any such place, and to that end may, after demand and refusal, cause any building, enclosure or car to be entered, and any apartment in which it is believed that game is concealed to be examined by any of said wardens or other officers executing the warrant; provided, that the issuance and execution of such search warrants shall be in accordance with the issuance and execution of search warrants in other cases as provided by law.

6. All game animals, wild water fowl and birds, protected by law, or parts thereof, found under such warrant, shall be seized by the warden or other officer making the search, and shall be disposed of as the court, judge or justice having jurisdiction may direct. All guns, gunning or hunting appliances found in such search shall be seized by said warden or other officer, and held subject to the payment of the fine prescribed by law for the offense charged and the cost of prosecution. If any of the articles so found be such as are not authorized by law they shall, upon the order of the court, judge or justice having jurisdiction, be destroyed, and all other of such articles shall be sold at public auction after the lapse of twenty days from the time of seizure, and after such notice as the court, judge or justice having jurisdiction, may prescribe, unless the reputed owner appears and acquits himself of the charge or pay the fine that may be imposed by the court, judge or justice.

7. Any person or persons interfering with any of said game wardens in the discharge of their duty, or resisting lawful arrest, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be fined not less than five dollars nor more than fifty dollars.

8. All fines and penalties imposed and collected under the provisions of this chapter shall be paid to the Commonwealth, and in addition to said fines and penalties, there shall be assessed against the offender in every case of conviction under the provisions of this chapter a fee of two dollars and fifty cents, which shall be collected as fines are collected under the general provisions of law and be paid to the warden who shall secure the conviction.

9. If any warden appointed under this section shall refuse or wilfully neglect to prosecute any person violating any of its provisions, or any of the laws of this State relating to wild water fowl, game birds or game animals, or song or insectivorous birds, his appointment shall be revoked by the court having jurisdiction, and such warden shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined not exceeding twenty dollars, and the vacancy thus created shall be filled by the court or judge in vacation.

10. All money paid to or collected by clerks of courts as hunting licenses shall constitute a fund for the payment of the said regularly appointed game wardens of this State as herein provided, and the clerk shall, after deducting a fee of fifty

cents for issuing such license, on first of April of each year, pay in equal amounts to the said warden or wardens of his county such sum as may be in his hands arising from the issuance of such licenses; provided, that no one warden shall receive more from this source than three hundred dollars in any one year, and shall make return to his court a detailed statement of such receipts and disbursements; provided, that in the counties of Accomac and Northampton the circuit court for said counties shall appoint, on the recommendation of the Eastern Shore Game Protection Association, the game wardens of the said counties, who shall make report at regular intervals to said association, as its laws shall provide, and the said clerks of the courts of said counties upon the order of said association, shall distribute among the game wardens for said counties, or as may have been agreed upon by contract between the said association and said wardens, or in proportion to the services, which, in their judgment, have been rendered by them, respectively, the fund arising from the license of non-residents provided for in this chapter, or so much thereof as may be necessary. Should there be any surplus remaining after providing an efficient system of game protection in said counties from the license of non-residents above mentioned, said association may use it for restocking said counties with game. The clerk shall pay to the treasurer of said association such sums as may be thus expended, paying any amounts not needed for the purpose above mentioned to the Auditor of Public Accounts, as provided in section twenty hundred and seventy.

Section 2070 (c). Non-residents to obtain hunting licenses: when and how game may be exported, et cetera. 1. It shall be unlawful for any person, not a resident of this State, to hunt or kill wild water fowl, wild turkeys, pheasants or grouse, woodcock, partridges, quail or other game birds, or deer, within this State until he shall have first secured a hunting license as hereinafter provided; provided, however, that the non-resident child of resident owners of land in this State, shall be allowed to hunt on the lands of his parents as though he were a resident of this State, and the non-resident guest of a resident land owner shall be allowed to hunt on the lands of his host as though he were a resident of this State, when accompanied by said host, or a member of his host's family; provided, said host receives no compensation directly or indirectly from said guest.

2. Upon the personal application of any non-resident to the clerk of the circuit court of any county in which he first begins to hunt, such clerk shall, upon the payment of ten dollars, issue to such non-resident a hunting license, using a form to be prescribed by the Auditor of Public Accounts for that purpose, entitling him to hunt and kill wild water fowl, deer, wild turkeys, pheasants or grouse, woodcock, partridges, quail and other game birds during the open season in the six months next following, and subject to any restrictions now existing or which may hereafter be imposed upon residents of this State. The clerk shall retain fifty cents as his fee for issuing such license, and the residue he shall account for to the Auditor of Public Accounts, unless otherwise provided by law. Such license shall not be transferable.

3. It shall be unlawful, except as hereinafter provided, to ship or transport, or to cause to be shipped or transported, from this State, whether alive or dead, wild water fowl, wild turkey, pheasants or grouse, woodcock, partridges, quail, or other game birds, or any deer or venison, killed or captured within this State, nor shall the same be killed, captured or possessed with intent to ship or transport from this State.

4. Any person authorized to hunt under the laws of this State may, during the open season, take with him out of the State, either in his personal possession or as his baggage, on the same conveyance with him, not in a closed package, but exposed to view, not exceeding thirty wild water fowl, fifty quail or partridges, ten pheasants or grouse, three wild turkeys, one deer or plovers, snipe, sand-pipers, willets, tattlers or curlew, not exceeding twenty-five of each or not exceeding one hundred in the aggregate, when killed or captured by himself; provided, the same shall be plainly labelled or tagged with the name and address of such person; and any citizen of this State may, during the open season, ship or have transported from this State, as a gift and not for market or sale, so stating on the shipping tag, one deer during the season, and not exceeding three wild turkeys, six pheasants, twelve wild water fowl, eighteen partridges or quail; provided, that such game shall be shipped exposed to public view and unconcealed, and each parcel or package shall be plainly labelled or tagged with the name and address of the donor and of the donee, and the number of each of such game so shipped. This section shall not apply to sora or rabbits or hares.

6. Nothing in this section shall be construed to prevent common carriers from carrying or transporting any of the game herein mentioned in unbroken packages from beyond the confines of this State through the same to some point in another State.

7. Any person or corporation violating any provision of this section shall be guilty of a misdemeanor and be liable to a fine of fifty dollars for each offense, or imprisoned in jail for not exceeding sixty days.

8. No person charged with an offense under this section shall within the meaning thereof be deemed a resident of this State who shall not have resided within the limits of the State twelve months next preceding the time when the alleged offense was committed, unless he shall have, *bona fide* taken up his residence in this Commonwealth, and has his *bona fide* domicile therein, and in any prosecution for such offense the burden of proof as to residence shall be upon the defendant.

Section 2071. Unlawful hunting, trespassing, etcetera, on another's lands and waters.—If any person without the consent of the owner or tenant, shoot, hunt, range, fish, trap or fowl on or in the lands, waters, mill ponds or private ponds of another, which are enclosed, or the boundaries of which or the streams adjacent to which constitute a lawfullence, or on any lands, waters, mill ponds or private ponds of another, east of the Blue Ridge, or in the waters on said land, he shall be deemed guilty of a trespass, and upon conviction thereof shall be fined not less than five dollars nor more than fifty dollars, and in addition thereto shall be liable in an action for damages; and if any person, after being warned not to do so by the owner or tenant of any premises, shall go upon the lands of the said owner or tenant, he shall, in addition to the liabilities imposed under this section, be deemed guilty of a misdemeanor, and upon conviction thereof, punished by a fine not exceeding fifty dollars or imprisoned in the county jail not exceeding sixty days, or both, in the discretion of the justice or jury trying the case.

## **UNITED STATES POSTAGE LAWS.**

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

### **First-Class Matter.**

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter under class three.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents. Nothing must be added or attached to a postal card, except that a printed address slip may be pasted on the address or message side. The addition of anything else subjects the card to letter postage. A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be conclusively a part of the address and therefore permissible. Cards that have been spoiled in printing or otherwise will be redeemed at 75 per cent. of face value. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each. Cards must not exceed the size of  $3\frac{1}{2}$  by  $5\frac{1}{2}$  inches or be smaller than  $2\frac{1}{16}$  by  $4\frac{1}{16}$  inches in dimensions. Their quality must be substantially that of the government postal cards and weigh about six pounds three ounces to the thousand. Their color may be white, cream, light gray, or light buff. The cards must bear on the address side, in print, the words, "Post Card—Authorized by Act of Congress of May 19, 1898." When prepared for sale they should also bear in the upper right-hand corner of the address side a diagram with the words, "Place a one-cent stamp here;" and in the lower left-hand corner the printed words, "This side is exclusively for the address."

The message on the cards may be in writing or print, and there may also appear on the message side advertisements, illustrations, or other matter, printed either in black or colors. And there must be attached to every card mailed a one-cent adhesive postage stamp. These cards cannot be mailed to foreign countries, except at the letter rate of postage.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. An ordinary ten-cent stamp affixed to a letter will not entitle it to special delivery. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Prepaid letters will be forwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

### Second-Class Matter.

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents, and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the bulletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Such Christmas, New Years, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery ten-cent stamps are affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

### Third-Class Matter.

Mail matter of the third-class includes printed books, pamphlets, engravings circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

“THE PETERSBURG SEED HOUSE.”

W. GROSSMAN & SON,

Petersburg, Virginia.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery stamps are affixed in addition to the regular postage.

Upon matter of the third-class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word “from,” and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

#### Fourth-Class Matter.

Fourth-class matter is all mailable matter not included in the three preceding classes, which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, one cent for each ounce or fraction thereof (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is one cent for each two ounces or fraction thereof.) This matter must be fully prepaid, or it will not be forwarded. The affixing of special delivery ten-cent stamps in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under “first-class matter.”)

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad odor will not be forwarded in any case.

Firearms may only be sent in detached parts.

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tight-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is not exceeding four ounces, liquid measure.

Limit of weight of fourth-class matter (excepting liquids), four pounds.

The name and address of the sender, preceded by the word “from,” also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering postmaster may also be written asking him to return the package if not delivered.

#### **Registration.**

All kinds of postal matter may be registered at the rate of eight cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed \$25.00 for any one registered piece or the actual value of the piece if it is less than \$25.00—shall be paid for the loss of first-class registered matter.

#### **Domestic Money Orders.**

Domestic money orders are issued by money-order postoffices for any amount up to \$100, at the following rates:

For sums not exceeding \$2.50, 3 cents; over \$2.50, to \$5, five cents; over \$5 to \$10, eight cents; over \$10 to \$20, ten cents; over \$20 to \$30, twelve cents; over \$30 to \$40, fifteen cents; over \$40 to \$50, eighteen cents; over \$50 to \$60, twenty cents; over \$60 to \$75, twenty-five cents; over \$75 to \$100, thirty cents.

#### **Stamped Envelopes.**

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.

2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.

3. All periodicals sent to subscribers within the county where printed.

4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.

5. The Vice-President, Members and Members-elect, and Delegates and Delegates-elect to Congress may frank any mail matter, not over two ounces in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

Being helpless, bed-ridden for years with a double rupture, which physicians said could only be cured by a mutilating surgical operation, and which involved the risk of my life. I made use of valuable information, which I had luckily obtained and was completely cured. Many others have since adopted the same means of self-treatment and were soon rid of distressing, dangerous, life-shortening rupture—single, double, inguinal, labial, femoral, scrotal, etc. **Don't send a cent, merely write, mentioning what kind of rupture you have, and you shall receive a Trial Treatment, Free,** with book of thrilling interest and valuable information. Absolutely free.  
Address Capt. W. A. COLLINGS, Inc., 608, Arsenal St., Watertown, N. Y.

The above is C. E. Brooks, inventor of the Appliance, who cured himself and who has been curing others for over 30 years. If ruptured, write him today.

It gives instant relief when all others fail. Remember I use no salves, no harness, no lies.

# **LIME. LIME. LIME.**

Dear Sir:-

It is a well established fact that the farmer must employ modern business methods if he is to keep up with the procession, increase his profits, and obtain best results for his labor. It is clearly established that lime is a plant food, and is just as essential to the plant as nitrogen, potash or phosphoric acid. Lime must be present in the soil or no crop can be grown successfully.

Write us for more information on this subject. We manufacture ground lime, ground limestone, specially prepared lime for the farmer, and lump agricultural lime.

### TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude  $37^{\circ} 32' 21''$  N., and in Longitude  $77^{\circ} 25' 35''$  W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made necessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change, so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of longitude makes a difference of 4 minutes, and that in this latitude a degree of longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east, and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

### Almanack Calculations for 1914.

The year 1914 comprises the latter part of the 138th and the beginning of the 139th year of American Independence, and corresponds to—

The year 6627 of the Julian Period.

The year 5674-75 of the Jewish Era. The year begins at sunset September 20, 1914.

The year 2667 since the foundation of Rome according to Varro.

The year 2574 of the Japanese Era, and the 47th year of the period entitled "Meiji."

The year 1333 of the Mohammedan Era, or the Era of the Hejira, begins on the 19th day of November, 1914.

The first day of January, 1914, is the 2,420,134th day since the commencement of the Julian Period.

OBSERVATIONS.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.
2. The space for this calculation occupies from ten at night till two next morning.
3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.
4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.
5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.

This is a careful analysis of Game Laws of Virginia in reference to hunting and embraces all legislation, including the session of 1910.

Approved March 16, 1910.

Be it enacted by the General Assembly of Virginia, That section two thousand and seventy a, of the Code of Virginia, as amended by an act approved March sixteenth, nineteen hundred and ten, providing when and how unlawful to hunt, et cetera, as amended and re-enacted as to subsection two thereof, by an act approved March fourteenth, nineteen hundred and four, be amended and re-enacted so as to read as follows:

Section 2070 (a). When and how unlawful to hunt, et cetera, and power of boards of supervisors.—1. It shall be unlawful for any person to shoot at, kill or capture any wild water fowl or wild turkey at any time during the night in this State, or at any time to capture them in traps or nets or other contrivances, or to use reflectors or other lights or sneak boats or artificial islands in detecting or capturing or shooting of wild fowl or game of any kind or to hunt or shoot muskrats at night with a light in the Tidewater sections of the State. All sneak boats, nets, traps, or reflectors or other unlawful appliances so used or found in the possession of any person, shall be seized by any game warden or other officer and held by him as evidence, but the same shall not be destroyed except by the order of the court or justice having jurisdiction, upon warrants duly issued, which said court or justice shall upon satisfactory evidence of the guilt of the party or of the unlawful nature of the article seized, order the same to be destroyed. The possession of any said guns, sneak boats, nets, traps, reflectors, or other unlawful appliances shall be prima facie evidence of the guilt of the person in whose possession they are found.

2. It shall be unlawful for any person to hunt, kill, or capture in any manner or have in possession any wild turkeys, pheasants, grouse, quail partridges or woodcock east of the Blue Ridge Mountains between February the first and November the first, and west of the Blue Ridge Mountains between December the thirty-first and November the first, or to track or hunt any of them in the snow, or to trap or net them at any time, or buy, offer for sale or sell at any time, any robins, grouse, pheasants, quail or partridges or woodcock, or to destroy their nests, eggs or young at any time, or kill, chase or capture, or buy, offer for sale, or have in possession any wild deer between December the first and September the first, or to track or hunt them in snow, or to kill or capture, or buy, offer for

3. It shall be unlawful to shoot or otherwise hunt any wild fowl or any game birds or game animals protected by the laws of this State later than an half an hour after sunset or earlier than an half an hour before sunrise, or to shoot or hunt any game in this State on Sunday.

5. (As amended by act approved March 14, 1912), The board of supervisors of any county shall have the power to shorten the open season in their said county, and by regulations not inconsistent with the provisions of this section may further protect the game within their said county, and may include in such protection other game not specifically mentioned in this section; provided, that it shall be lawful to ship out of the State, wild water fowl legally killed in the counties of Accomac, Northampton, Norfolk and Princess Anne. And wild water fowl may be shot at night in the counties of Essex, Richmond and Westmoreland. But in shooting any game in this State no gun larger than a ten bore may be used, this to be shot from the shoulder, and no person shall be allowed to shoot more than one gun at a time or to shoot a battery of guns; provided, this act shall not apply to Back bay or its tributaries, in Princess Anne county; and provided, further, it shall be lawful to ship within or without the State wild water fowl legally killed.

Sec. 2070 (b). Game wardens, their appointment, duties, etc.—1. It shall be the duty of the city or corporation court of the State, or the judges thereof in vacation, on the application of five resident freeholders of any city to appoint two suitable persons in such city as game wardens, whose jurisdiction shall be confined to their respective cities, and it shall be the duty of the circuit courts of the several counties of the State, or the judge thereof in vacation, upon application of five resident freeholders, to appoint one or more suitable persons as game wardens, whose jurisdiction shall be confined to their several magisterial districts. When the said appointment is made by the judge thereof in vacation, he shall certify the same to the clerk of his court, who shall enter the same in the order book of his court as if made in term.

2. This act shall not be construed as conflicting with any of the other provisions of section two thousand and seventy-b, but all acts or part of acts in conflict with this act be, and the same are hereby, repealed.

3. The said wardens shall have power and it shall be their duty, to arrest any person detected by them in the act of violating any of the aforesaid laws, or any person against whom a warrant shall have been duly issued upon the information of any other person for such violation, and forthwith to carry such person before a justice or court having jurisdiction over the offence, who shall proceed without unreasonable delay to hear, try and determine the charge against such person. No game warden shall have any right under this act to go upon the land of another person without the consent of such other person until

and unless such game warden shall have procured a search warrant in conformity with the provisions of subsection five of this section, or shall have a warrant for the arrest of some person thereon: provided, however, that such game warden may, without a warrant, arrest any person who violates any of the provisions of this chapter in the presence of such game warden, and should any person violate any of the provisions of this chapter in the presence of such game warden, such game warden may lawfully follow such person anywhere in the effort to arrest.

4. The several commanders of the oyster police boats of this Commonwealth are hereby constituted game wardens of this State, whose jurisdiction as such wardens shall extend over the lands and waters of this Commonwealth within their several jurisdictions as commanders. They shall enforce the statutes of this State and of the United States for the protection of game or other animals or birds protected by law, and render report to the Board of Fisheries of all prosecutions, and the said Board of Fisheries shall publish the same in their annual report as information. The commanders of the said oyster police boats shall receive no additional compensation for the performance of these duties, except that in cases of conviction they may receive the fee provided for in subsection eight of this section.

5. Any court, judge or justice having jurisdiction over the offense, if satisfied upon affidavit that there is reasonable cause to believe that any wild water fowl, game birds, game animals or song or insectivorous birds, or parts thereof caught, taken, killed, shipped, or about to be shipped, or in transit, contrary to the laws of this State, or of the United States, are being concealed or stored in any place, shall issue a search warrant and cause search therefor to be made in any such place, and to that end may, after demand and refusal, cause any building, enclosure or car to be entered, and any apartment in which it is believed that game is concealed to be examined by any of said wardens or other officers executing the warrant; provided, that the issuance and execution of such search warrants shall be in accordance with the issuance and execution of search warrants in other cases as provided by law.

6. All game animals, wild water fowl and birds, protected by law, or parts thereof, found under such warrant, shall be seized by the warden or other officer making the search, and shall be disposed of as the court, judge or justice having jurisdiction may direct. All guns, gunning or hunting appliances found in such search shall be seized by said warden or other officer, and held subject to the payment of the fine prescribed by law for the offense charged and the cost of prosecution. If any of the articles so found be such as are not authorized by law they shall, upon the order of the court, judge or justice having jurisdiction, be destroyed, and all other of such articles shall be sold at public auction after the lapse of twenty days from the time of seizure, and after such notice as the court, judge or justice having jurisdiction, may prescribe, unless the reputed owner appears and acquits himself of the charge or pay the fine that may be imposed by the court, judge or justice.

7. Any person or persons interfering with any of said game wardens in the discharge of their duty, or resisting lawful arrest, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be fined not less than five dollars nor more than fifty dollars.

8. All fines and penalties imposed and collected under the provisions of this chapter shall be paid to the Commonwealth, and in addition to said fines and penalties, there shall be assessed against the offender in every case of conviction under the provisions of this chapter a fee of two dollars and fifty cents, which shall be collected as fines are collected under the general provisions of law and be paid to the warden who shall secure the conviction.

9. If any warden appointed under this section shall refuse or wilfully neglect to prosecute any person violating any of its provisions, or any of the laws of this State relating to wild water fowl, game birds or game animals, or song or insectivorous birds, his appointment shall be revoked by the court having jurisdiction, and such warden shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined not exceeding twenty dollars, and the vacancy thus created shall be filled by the court or judge in vacation.

10. All money paid to or collected by clerks of courts as hunting licenses shall constitute a fund for the payment of the said regularly appointed game wardens of this State as herein provided, and the clerk shall, after deducting a fee of fifty

## UNITED STATES POSTAGE LAWS.

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

### First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment to printed matter under class three.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents. Nothing must be added or attached to a postal card, except that a printed address slip may be pasted on the address or message side. The addition of anything else subjects the card to letter postage. A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be conclusively a part of the address and therefore permissible. Cards that have been spoiled in printing or otherwise will be redeemed at 75 per cent. of face value. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each. Cards must not exceed the size of  $3\frac{1}{2}$  by  $5\frac{1}{2}$  inches or be smaller than  $2\frac{1}{16}$  by  $4\frac{1}{16}$  inches in dimensions. Their quality must be substantially that of the government postal cards and weigh about six pounds three ounces to the thousand. Their color may be white, cream, light gray, or light buff. The cards must bear on the address side, in print, the words, "Post Card—Authorized by Act of Congress of May 19, 1898." When prepared for sale they should also bear in the upper right-hand corner of the address side a diagram with the words, "Place a one-cent stamp here;" and in the lower left-hand corner the printed words, "This side is exclusively for the address."

The message on the cards may be in writing or print, and there may also appear on the message side advertisements, illustrations, or other matter, printed either in black or colors. And there must be attached to every card mailed a one-cent adhesive postage stamp. These cards cannot be mailed to foreign countries, except at the letter rate of postage.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. An ordinary ten-cent stamp affixed to a letter will not entitle it to special delivery. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Prepaid letters will be forwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

### **Second-Class Matter.**

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents, and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the bulletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Such Christmas, New Years, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery ten-cent stamps are affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

### **Third-Class Matter.**

Mail matter of the third-class includes printed books, pamphlets, engravings circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

# I. C. Shore & Co.,

PETERSBURG, VA.

If you wish to be pleased, try our Old Yellow Rose N. C. Corn Whiskey, **\$2.00 per gallon.**

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery stamps are affixed in addition to the regular postage.

Upon matter of the third-class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

## Fourth-Class Matter.

Fourth-class matter is all mailable matter not included in the three preceding classes, which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. It embraces merchandise and samples of every description, and coin or specie.

Rate of postage, one cent for each ounce or fraction thereof (except seeds, roots, bulbs, cuttings, scions, and plants, the rate on which is one cent for each two ounces or fraction thereof.) This matter must be fully prepaid, or it will not be forwarded. The affixing of special delivery ten-cent stamps in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, sugar, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad odor will not be forwarded in any case.

Firearms may only be sent in detached parts.

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tight-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is not exceeding four ounces, liquid measure.

Limit of weight of fourth-class matter (excepting liquids), four pounds.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering postmaster may also be written asking him to return the package if not delivered.

## Registration.

All kinds of postal matter may be registered at the rate of eight cents for each package in addition to the regular rates of postage, to be fully prepaid by stamps. Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed \$25.00 for any one registered piece or the actual value of the piece if it is less than \$25.00—shall be paid for the loss of first-class registered matter.

## Domestic Money Orders.

Domestic money orders are issued by money-order postoffices for any amount up to \$100, at the following rates:

For sums not exceeding \$2.50, 3 cents; over \$2.50, to \$5, five cents; over \$5 to \$10, eight cents; over \$10 to \$20, ten cents; over \$20 to \$30, twelve cents; over \$30 to \$40, fifteen cents; over \$40 to \$50, eighteen cents; over \$50 to \$60, twenty cents; over \$60 to \$75, twenty-five cents; over \$75 to \$100, thirty cents.

## Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.

2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.

3. All periodicals sent to subscribers within the county where printed.

4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.

5. The Vice-President, Members and Members-elect, and Delegates and Delegates-elect to Congress may frank any mail matter, not over two ounces in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

## Can Cancer be Cured? It Can

The record of the KELLAM HOSPITAL is without parallel in history, having cured to stay cured permanently without the use of the knife or X-Ray over 90 per cent. of the many hundreds of sufferers from cancer which it has treated during the past fifteen years. We have been endorsed by the senate and Legislature of Virginia. We guarantee our cures. PHYSICIANS TREATED FREE.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude  $37^{\circ} 32' 21''$  N., and in Longitude  $77^{\circ} 25' 35''$  W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made necessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change, so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of longitude makes a difference of 4 minutes, and that in this latitude a degree of longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east, and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

" 10 and midnight.....	Fair.....	Fair and frosty.

## OBSERVATIONS.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.

2. The space for this calculation occupies from ten at night till two next morning.

3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.

4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.

5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.

### UNITED STATES POSTAGE LAWS.

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

#### First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment under 2nd, 3rd and 4th class mail.

Rates of letter postage to any part of the United States, **two cents per ounce or fraction thereof.**

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents.

Postal cards issued by the Post Office Department may bear written, printed or other additions as follows:

(a) The face of the card may be divided by a vertical line placed approximately one-third of the distance from the left end of the card; the space to the left of the line to be used for a message, etc., but the space to the right for the address only.

(b) Addresses upon postal cards \* \* \* may be either written, printed, or affixed thereto, at the option of the sender.

(c) Very thin sheets of paper may be attached to the card on condition that they completely adhere thereto.

(d) Advertisements, illustrations, or writing may appear on the back of the card and on the left third of the face.

2. The addition to a postal card of matter other than as above authorized destroys its privilege as a postal card and subjects it to postage according to the character of the message—at the letter rate if wholly or partly in writing, or the third-class rate if entirely in print—but does not impair the postage value of the stamp impressed on the card.

A card containing any offensive, obscene or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be conclusively a part of the address and therefore permissible. Cards that have been spoiled in printing or otherwise will be redeemed at 75 per cent. of face value. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each.

Private mailing cards (post cards) in the domestic mails shall conform to the following conditions:

(a) A post card shall be an unfolded piece of cardboard not exceeding approximately 3 9-16 by 5 9-16 inches nor less than approximately 2 3/4 by 4 inches.

(b) It shall be in form and in the quality and weight of paper substantially like the Government postal card.

(c) It may be of any color not interfering with a legible address and postmark.

(d) It may or may not, at the option of the sender, bear near the top of the face the words "Post Card."

(e) The face of the card may be divided by a vertical line; the left half to be used for a message, etc., but that to the right for the address only.

(f) Very thin sheets of paper may be attached to the card, and then only on condition that they completely adhere thereto.

(g) Advertisements and illustrations may appear on the back of the card and on the left half of the face.

2. It is desirable that post cards bear in the upper right corner of the face an oblong diagram containing the words "Please place postage stamp here" and at the bottom the words "This space for the address."

(3) Cards which do not conform to the prescribed conditions shall be charged with postage according to the character of the message—at the letter rate if wholly or partly in writing, or the third class rate if entirely in print.

(4) Cards bearing particles of glass, metal, mica, sand, tinsel, or other similar substances, shall not be accepted for mailing, except when enclosed in envelopes.

ightly sealed to prevent the escape of such particles, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

These cards mailed to foreign countries, require two cents.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. Ten cents in ordinary stamps affixed to a letter will entitle it to special delivery if the words "Special Delivery" are marked on the letter. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must wait delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Prepaid letters will be forwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

## **Second-Class Matter.**

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from known office of publication or news agency, to actual subscribers or news agents, and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the bulletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

## Breeders of Registered Jersey Cattle

Such Christmas, New Years, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery fee is affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

### Third-Class Matter.

Mail matter of the third-class includes printed books, pamphlets, engravings circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery fee is affixed in addition to the regular postage.

Upon matter of the third-class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

### Fourth-Class Matter.

The affixing of special delivery fee in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad order will not be forwarded in any case.

Firearms may only be sent unloaded.

Fourth-class matter embraces that known as domestic parcel post mail, and includes merchandise, farm and factory products, seeds, cuttings, bulbs, roots, scions, and plants, books (including catalogs) miscellaneous printed matter weighing more than 4 pounds, and all other mailable matter not embraced in the first, second, and third classes.

The domestic parcel post offers a convenient, quick, and efficient means of transporting mailable parcels to any post office in the United States or its possessions. The service reaches more places than any other transportation agency.

## Linotype Machine Composition

## **Atlantic Life Insurance Company, Richmond, Va.—absolutely sound—well managed—and wisely supervised by the State.**

It brings producers and consumers into closer contact, thus opening the way to reducing the high cost of living. Special treatment and advantages are accorded to shipments of farm products weighing between 20 and 50 pounds. Low postage rates, based on the service rendered, are provided. The rates to nearby zones are particularly advantageous. Parcels may be insured against loss and may be sent C. O. D., and as special delivery matter.

Rates of postage on fourth-class or parcel post matter—to be fully prepaid—unsealed—are as follows:

(a) Parcels weighing 4 ounces or less, except books, seeds, plants, etc., 1 cent for each ounce or fraction thereof, any distance.

(b) Parcels weighing 8 ounces or less containing books, seeds, cuttings, bulbs, roots, scions, and plants, 1 cent for each 2 ounces or fraction thereof, regardless of distance.

(c) Parcels weighing more than 8 ounces containing books, seeds, plants, etc., parcels of miscellaneous printed matter weighing more than 4 ounces are chargeable, according to distance or zone, at the pound rates, a fraction of a pound being considered a full pound:

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tight-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is the same as other fourth-class matter, or parcel post.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering postmaster may also be written asking him to return the package if not delivered.

### **Registration.**

Postmasters shall register all mailable matter properly prepared and offered for that purpose except domestic matter of the fourth class.

(2) Money sent at the first-class rate and other valuable matter of the first, second, and third classes sent by mail should be registered.

The fee on registered matter, domestic or foreign, shall be 10 cents in addition to the postage for each letter or parcel, both to be fully prepaid by stamps affixed.

Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed, if required. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed \$50.00 for any one registered piece or the actual value of the piece if it is less than \$50.00—shall be paid for the loss of first class registered matter, and not exceeding \$25.00 in any one case of third-class mail matter.

### **Domestic Money Orders.**

Domestic money orders are issued by money-order postoffices for any amount up to \$100, at the following rates:

For sums not exceeding \$2.50, 3 cents; over \$2.50, to \$5, five cents; over \$5 to \$10, eight cents; over \$10 to \$20, ten cents; over \$20 to \$30, twelve cents; over \$30 to \$40, fifteen cents; over \$40 to \$50, eighteen cents; over \$50 to \$60, twenty cents; over \$60 to \$75, twenty-five cents; over \$75 to \$100, thirty cents.

## Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.

2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.

3. All periodicals sent to subscribers within the country where printed.

4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.

5. The Vice-President, Members and Members-elect, and Delegates and Delegates-elect to Congress may frank any mail matter, not over two ounces in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

One Beautiful Feature is a Constant Joy to its Possessor.

Why Not Have Beautiful Hair?

Just a little Xanthine now and then stops the disagreeable itching and dandruff, and if the hair is gray, faded or not in good condition, restores the original color and lustre and produces rapid and luxuriant growth.

[From Rev. A. A. JAMES, Pastor of the Presbyterian Church, at Jonesville, S. C.

"It affords me pleasure in stating that I have seen all the beneficial effects produced by your preparation, Xanthine, which it claims to accomplish—removing dandruff, promoting the growth of hair, restoring it to its original color, and without any deleterious effects. It is far superior to anything of the kind I have ever seen." Send for Circular. Highest Testimonials. At druggists. Price \$1 00 a bottle. **F. O. B. FACTORY**

## **The Only Tractor for The Small Farm.**

Here is the pioneer tractor for 90% of the farms of this section. Where the nearest other tractor costs \$750, the BULL TRACTOR costs but \$395. It will pull your plows, seeders, harvesters, mowers, drills, discs, and then grind feed, saw wood, pump water and do all the other chores around the farm. No expense unless it's actually working, and then it costs far less in gasoline than in horse feed.

## **Outpulls 5 Good Mules—Costs Less Than Two.**

The Bull Tractor is made by the pioneers in gasoline engine business. 14 years experience. Backed by millions and fully guaranteed,

Adolph Koehmstedt writes: "I am pulling one 8 foot Acme Queen binder with my Bull Tractor and can cut from 30 to 50% more in a day than with horses and the binder runs better.

Mr. John A. Detrick writes: "The Bull Tractor is the only tractor I know of that is practical and successful for the average size farm. Besides doing more work than 5 of the best mules I ever had, it does all belt work."

Any farmer can save money by selling two good mules and getting a BULL TRACTOR. Ex-Congressman Lamb said that the BULL TRACTOR on his farm did the work of 3 two-horse plows, and did it better. The Bull Tractor never gets tired, gets your work done on time,—and does belt-work when not in the field Plowing. It's the thing you have needed for years,

# DRINK HABIT

For the good of those who are victims, directly or indirectly, of the drink habit. I have written and published a very interesting illustrated book which describes how I was freed completely from the craving and for several years I have not had any desire to touch a drop of anything alcoholic. My book contains information, by following which thousands of drinkers have admittedly been saved.

Many men who do not want to be freed of drink curse, have been secretly saved by wives, mothers or sisters. They did not realize what was happening until they found all desire had left them—they couldn't drink any more whiskey or beer—then they rejoice at having been saved. My book has been proven many times worth its weight in gold to a multitude of families. Praised by physicians, judges, editors, clergymen and legions of others. Don't lose this notice; it may not appear again, simply write Edward J. Woods, 950 B, Station E, New York, N. Y., and you will soon receive the FREE book of valuable information in plain wrapper, and happiness may soon be yours. Correspondence confidential.

## Tobacco Habit Easily Conquered

A New Yorker, of wide experience, has written a book telling how the tobacco or snuff habit may be easily and completely banished in three days with delightful benefit. The author, Edward J. Woods, 950 C, Station E, New York City, will mail his book free on request.

The health improves wonderfully after the nicotine poison is out of the system. Calmness, tranquil sleep, clear eyes, normal appetite, good digestion, manly vigor, strong memory and a general gain in efficiency are among the many benefits reported. Get rid of that nervous feeling; no more need of pipe, cigar, cigarette, snuff or chewing tobacco to pacify morbid desire.

### TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude 37° 32' 21'' N., and in Longitude 77° 25' 35'' W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made necessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of longitude makes a difference of 4 minutes, and that in this latitude a degree of longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east, and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

### Almanack Calculations for 1916.

The year 1916 comprises the latter part of the 140th and the beginning of the 141st year of American Independence, and corresponds to—

- The year 5629 of the Julian Period.

- The year 2669 since the foundation of Rome according to Varro.
- The year 2576 of the Japanese Era, and the 5th year of the period entitled "Taisho."
- The year 1535 of the Mohammedan Era, or the Era of the Hegira, begins on the 28th day of October, 1916.
- The first day of January, 1916, is the 2,420,864th day since the commencement of the Julian Period.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.
2. The space for this calculation occupies from ten at night till two next morning.
3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.
4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.
5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.

JANUARY.—This is the month for making plans for the year's operations. Very little work can be done in the garden, beyond securing a supply of seeds and manure and preparing compost heaps and hot-beds for next month, getting poles, brush, and sticks for beans, peas, and tomatoes. Clean up the garden.

## UNITED STATES POSTAGE LAWS.

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

### First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment under 2nd, 3rd and 4th class mail.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents.

Postal cards issued by the Post Office Department may bear written, printed, or other additions as follows:

(a) The face of the card may be divided by a vertical line placed approximately one-third of the distance from the left end of the card; the space to the left of the line to be used for a message, etc., but the space to the right for the address only.

(b) Addresses upon postal cards \* \* \* may be either written, printed, or affixed thereto, at the option of the sender.

(c) Very thin sheets of paper may be attached to the card on condition that they completely adhere thereto.

(d) Advertisements, illustrations or writing may appear on the back of the card and on the left third of the face.

2. The addition to a postal card of matter other than as above authorized destroys its privilege as a postal card and subjects it to postage according to the character of the message—at the letter rate if wholly or partly in writing, or the third-class rate if entirely in print—but does not impair the postage value of the stamp impressed on the card.

A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be conclusively a part of the address and therefore permissible. Cards that have been spoiled in printing or otherwise will be redeemed at 75 per cent. of face value. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each.

Private mailing cards (post cards) in the domestic mails shall conform to the following conditions:

(a) A postcard shall be an unfolded piece of cardboard not exceeding approximately 3 9-16 by 5 9-16 inches nor less than approximately 2 3/4 by 4 inches.

(b) It shall be in form and in the quality and weight of paper substantially like the Government postal card.

(c) It may be of any color not interfering with a legible address and postmark.

(d) It may or may not, at the option of the sender bear near the top of the face the words "Post Card."

(e) The face of the card may be divided by a vertical line; the left half to be used for a message, etc., but that to the right for the address only.

(f) Very thin sheets of paper may be attached to the card, and then only on condition that they completely adhere thereto.

(g) Advertisements, and illustrations may appear on the back of the card and on the left half of the face.

2. It is desirable that post cards bear in the upper right corner of the face an oblong diagram containing the words "Please place postage stamp here" and at the bottom the words "This space for the address."

(3) Cards which do not conform to the prescribed conditions shall be charged with postage according to the character of the message—at the letter rate if wholly or partly in writing or the third class rate if entirely in print.

(4) Cards bearing particles of glass, metal, mica, sand, tinsel or other similar substances, shall not be accepted for mailing, except when enclosed in envelopes

tightly sealed to prevent the escape of such particles, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

These cards mailed to foreign countries, require two cents.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. Ten cents in ordinary stamps affixed to a letter will entitle it to special delivery if the words "Special Delivery" are marked on the letter. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Prepaid letters will be forwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

### **Second-Class Matter.**

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents, and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the bulletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

**Carter, Venable & Co., Inc., Richmond, Va.**

Such Christmas, New Years, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery fee is affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

## Third-Class Matter.

Mail matter of the third-class includes printed books, pamphlets, engravings circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery fee is affixed in addition to the regular postage.

Upon matter of the third-class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

## Fourth-Class Matter.

The affixing of special delivery fee in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad odor will not be forwarded in any case.

Firearms may only be sent unloaded.

Fourth-class matter embraces that known as domestic parcel post mail, and includes merchandise, farm and factory products, seeds, cuttings, bulbs, roots, scions, and plants, books (including catalogs), miscellaneous printed matter weighing more than 4 pounds, and all other mailable matter not embraced in the first, second, and third classes.

The domestic parcel post offers a convenient, quick, and efficient means of transporting mailable parcels to any post office in the United States or its possessions. The service reaches more places than any other transportation agency.

## **Atlantic Life Insurance Company, Richmond, Va.—absolutely sound—well managed—and wisely supervised by the State.**

It brings producers and consumers into closer contact, thus opening the way to reducing the high cost of living. Special treatment and advantages are accorded to shipments of farm products weighing between 20 and 50 pounds. Low postage rates, based on the service rendered, are provided. The rates to nearby zones are particularly advantageous. Parcels may be insured against loss and may be sent C. O. D., and as special delivery matter.

Rates of postage on fourth-class or parcel post matter—to be fully prepaid—unsealed—are as follows:

(a) Parcels weighing 4 ounces or less, except books, seeds, plants, etc., 1 cent for each ounce or fraction thereof, any distance.

(b) Parcels weighing 8 ounces or less containing books, seeds, cuttings, bulbs, roots, scions, and plants, 1 cent for each 2 ounces or fraction thereof, regardless of distance.

(c) Parcels weighing more than 8 ounces containing books, seeds, plants, etc., parcels of miscellaneous printed matter weighing more than 4 ounces are chargeable, according to distance or zone, at the pound rates, a fraction of a pound being considered a full pound:

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tight-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is the same as other fourth-class matter, or parcel post.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering postmaster may also be written asking him to return the package if not delivered.

### **Registration.**

Postmasters shall register all mailable matter properly prepared and offered for that purpose except domestic matter of the fourth class.

(2) Money sent at the first-class rate and other valuable matter of the first, second, and third classes sent by mail should be registered.

The fee on registered matter, domestic or foreign, shall be 10 cents in addition to the postage for each letter or parcel, both to be fully prepaid by stamps affixed.

Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed, if required. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed \$50.00 for any one registered piece or the actual value of the piece if it is less than \$50.00—shall be paid for the loss of first class registered matter, and not exceeding \$25.00 in any one case of third-class mail matter.

### **Domestic Money Orders.**

Domestic money orders are issued by money-order postoffices for any amount up to \$100, at the following rates:

For sums not exceeding \$2.50, 3 cents; over \$2.50, to \$5, five cents; over \$5 to \$10, eight cents; over \$10 to \$20, ten cents; over \$20 to \$30, twelve cents; over \$30 to \$40, fifteen cents; over \$40 to \$50, eighteen cents; over \$50 to \$60, twenty cents; over \$60 to \$75, twenty-five cents; over \$75 to \$100, thirty cents.

## Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.

2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.

3. All periodicals sent to subscribers within the county where printed.

4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.

5. The Vice-President, Members and Members-elect, and Delegates and Delegates-elect to Congress may frank any mail matter, not over two ounces in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

PROF HERTZ GREAT GERMAN  
**HAIR RESTORATIVE**

One Beautiful Feature is a Constant Joy to its Possessor.

Why Not Have Beautiful Hair?

Just a little Xanthine now and then stops the disagreeable itching and dandruff, and if the hair is gray, faded or not in good condition, restores the original color and lustre and produces rapid and luxuriant growth.  
[From Rev. A. A. JAMES, Pastor of the Presbyterian Church, at Jonesville, S. C.]  
"It affords me pleasure in stating that I have seen all the beneficial effects produced by your preparation, Xanthine, which it claims to accomplish—removing dandruff, promoting the growth of hair, restoring it to its original color, and without any deleterious effects. It is far superior to anything of the kind I have ever seen." Send for Circular. Highest testimonials. At druggists. Price \$1 00 a bottle. If your druggist has not got it, send us \$1.00 and we will send you a bottle:

### TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude  $37^{\circ} 32' 21''$  N., and in Longitude  $77^{\circ} 25' 35''$  W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made necessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of longitude makes a difference of 4 minutes, and that in this latitude a degree of longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east, and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

### Almanack Calculations for 1917.

The year 1917 comprises the latter part of the 141st and the beginning of the 142d year of American Independence, and corresponds to—

The year 6630 of the Julian Period.

The year 5677-78 of the Jewish Era. The year begins at sunset September 16, 1917.

The year 2670 since the foundation of Rome according to Varro.

The year 2577 of the Japanese Era, and the 6th year of the period entitled "Taisho."

The year 1336 of the Mohammedan Era, or the Era of the Hegira, begins on the 17th day of October, 1917.

The first day of January, 1917, is the 2,421,230th day since the commencement of the Julian Period.

# TOBACCO HABIT

A very interesting book has been published on tobacco habit—how to conquer it quickly and easily. It tells the dangers of excessive smoking, chewing, snuff using, etc., and explains how nervousness, irritability, sleeplessness, weak eyes, stomach troubles and numerous other disorders may be eliminated through stopping self-poisoning by tobacco. The man who has written this book wants to genuinely help all who have become addicted to tobacco habit and says there's no need to suffer that awful craving or restlessness which comes when one tries to quit voluntarily. This is no mind-cure or temperance sermon tract but plain common sense, clearly set forth. The author will send it free, postpaid, in plain wrapper. Write, giving name and full address—a postcard will do. Address: Edward J. Woods, 950 D, Station E, New York City. Keep this advertisement, it is likely to prove the best news you ever read in this journal.

" 2 and 4 morning.....	Cold and showers...	Snow and stormy.
" 4 and 6 ".....	Rain.....	Rain.
" 6 and 8 ".....	Wind and rain.....	Stormy.
" 8 and 10 ".....	Changeable.....	Cold rain if wind W., snow if E.
" 10 and 2 ".....	Frequent showers...	Cold and high wind.
" 12 and 2 afternoon.....	Very rainy.....	Snow or rain.
" 2 and 4 ".....	Changeable.....	Fair and mild.

" 8 and 10 ".....	Rainy if S. or S. W.	Rain or snow if S., or S. W.
" 10 and midnight.....	Fair.....	Fair and frosty.

## OBSERVATIONS.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.

2. The space for this calculation occupies from ten at night till two next morning.

3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.

4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.

5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.

JANUARY.—This is the month for making plans for the year's operations. Very little work can be done in the garden, beyond securing a supply of seeds and manure and preparing compost heaps and hot-beds for next month, getting poles, brush, and sticks for beans, peas, and tomatoes. Clean up the garden.

### UNITED STATES POSTAGE LAWS.

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

#### First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment under 2nd, 3rd and 4th class mail.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents.

Postal cards issued by the Post Office Department may bear written, printed, or other additions as follows:

(a) The face of the card may be divided by a vertical line placed approximately one-third of the distance from the left end of the card; the space to the left of the line to be used for a message, etc., but the space to the right for the address only.

(b) Addresses upon postal cards \* \* \* may be either written, printed, or affixed thereto, at the option of the sender.

(c) Very thin sheets of paper may be attached to the card on condition that they completely adhere thereto.

(d) Advertisements, illustrations, or writing may appear on the back of the card and on the left third of the face.

2. The addition to a postal card of matter other than as above authorized destroys its privilege as a postal card and subjects it to postage according to the character of the message—at the letter rate if wholly or partly in writing, or the third-class rate if entirely in print—but does not impair the postage value of the stamp impressed on the card.

A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be conclusively a part of the address and therefore permissible. Cards that have been spoiled in printing or otherwise will be redeemed at 75 per cent. of face value. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each.

Private mailing cards (post cards) in the domestic mails shall conform to the following conditions:

(a) A post card shall be an unfolded piece of cardboard not exceeding approximately 3 9-16 by 5 9-16 inches nor less than approximately 2 3/4 by 4 inches.

(b) It shall be in form and in the quality and weight of paper substantially like the Government postal card.

(c) It may be of any color not interfering with a legible address and postmark.

(d) It may or may not, at the option of the sender, bear near the top of the face the words "Post Card."

(e) The face of the card may be divided by a vertical line; the left half to be used for a message, etc., but that to the right for the address only.

(f) Very thin sheets of paper may be attached to the card, and then only on condition that they completely adhere thereto.

(g) Advertisements and illustrations may appear on the back of the card and on the left half of the face.

2. It is desirable that post cards bear in the upper right corner of the face an oblong diagram containing the words "Please place postage stamp here" and at the bottom the words "This space for the address."

(3) Cards which do not conform to the prescribed conditions shall be charged with postage according to the character of the message—at the letter rate if wholly or partly in writing or the third class rate if entirely in print.

(4) Cards bearing particles of glass, metal, mica, sand, tinsel, or other similar substances, shall not be accepted for mailing, except when enclosed in envelopes

tightly sealed to prevent the escape of such particles, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

These cards mailed to foreign countries, require two cents.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. Ten cents in ordinary stamps affixed to a letter will entitle it to special delivery if the words "Special delivery" are marked on the letter. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Prepaid letters will be forwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

## **Second-Class Matter.**

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents, and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the bulletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

## **REGISTERED JERSEYS**

**Millwork, Lime, Cement, Plaster, Roofing, Lumber, Etc.**

**SITTERDING-CARNEAL-DAVIS CO., Richmond, Va.**

**Building Outfitters.**

**Sale Agents Musterfield Sand and Gravel.**

Such Christmas, New Years, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery fee is affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

### **Third-Class Matter.**

Mail matter of the third-class includes printed books, pamphlets, engravings circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery fee is affixed in addition to the regular postage.

Upon matter of the third-class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

### **Fourth-Class Matter.**

The affixing of special delivery fee in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad odor will not be forwarded in any case.

Firearms may only be sent unloaded.

Fourth-class matter embraces that known as domestic parcel post mail, and includes merchandise, farm and factory products, seeds, cuttings, bulbs, roots, scions, and plants, books (including catalogs), miscellaneous printed matter weighing more than 4 pounds, and all other mailable matter not embraced in the first second, and third classes.

The domestic parcel post offers a convenient, quick, and efficient means of transporting mailable parcels to any post office in the United States or its possessions. The service reaches more places than any other transportation agency.

NONE BETTER AT ANY PRICE

Virginia Ribbon and Carbon Co., 1116 E. Cary St., Richmond, Va.

It brings producers and consumers into closer contact, thus opening the way to reducing the high cost of living. Special treatment and advantages are accorded to shipments of farm products weighing between 2½ and 50 pounds. Low postage rates, based on the service rendered, are provided. The rates to nearby zones are particularly advantageous. Parcels may be insured against loss and may be sent C. O. D., and as special delivery matter.

Rates of postage on fourth-class or parcel post matter—to be fully prepaid—unsealed—are as follows:

(a) Parcels weighing 4 ounces or less, except books, seeds, plants, etc., 1 cent for each ounce or fraction thereof any distance.

(b) Parcels weighing 8 ounces or less containing books, seeds, cuttings, bulbs, roots, scions, and plants, 1 cent for each 2 ounces or fraction thereof, regardless of distance.

(c) Parcels weighing more than 8 ounces containing books, seeds, plants, etc., parcels of miscellaneous printed matter weighing more than 4 ounces are chargeable, according to distance or zone, at the pound rates, a fraction of a pound being considered a full pound:

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tight-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is the same as other fourth-class matter, or parcel post.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering postmaster may also be written asking him to return the package if not delivered.

## Registration.

Postmasters shall register all mailable matter properly prepared and offered for that purpose except domestic matter of the fourth class.

(2) Money sent at the first-class rate and other valuable matter of the first, second, and third classes sent by mail should be registered.

The fee on registered matter, domestic or foreign, shall be 10 cents in addition to the postage for each letter or parcel, both to be fully prepaid by stamps affixed.

Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed, if required. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed \$50.00 for any one registered piece or the actual value of the piece if it is less than \$50.00—shall be paid for the loss of first class registered matter, and not exceeding \$25.00 in any one case of third-class mail matter.

## Domestic Money Orders.

Domestic money orders are issued by money-order postoffices for any amount up to \$100, at the following rates:

For sums not exceeding \$2.50, 3 cents; over \$2.50, to \$5, five cents; over \$5 to \$10, eight cents; over \$10 to \$20, ten cents; over \$20 to \$30, twelve cents; over \$30 to \$40, fifteen cents; over \$40 to \$50, eighteen cents; over \$50 to \$60, twenty cents; over \$60 to \$75, twenty-five cents; over \$75 to \$100, thirty cents.

### Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.

2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.

3. All periodicals sent to subscribers within the county where printed.

4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.

5. The Vice-President, Members and Members-elect, and Delegates and Delegates-elect to Congress may frank any mail matter, not over two ounces in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

One Beautiful Feature is a Constant Joy to its Possessor

Why Not Have Beautiful Hair?

Just a little Xanthine now and then stops the disagreeable itching and dandruff, and if the hair is gray, faded, or not in good condition, restores the original color and lustre and produces rapid and luxuriant growth.

[From Rev. A. A. JAMES, Pastor of the Presbyterian Church, at Jonesville, S. C.]

"It affords me pleasure in stating that I have seen all the beneficial effects produced by your preparation, **Xanthine**, which it claims to accomplish — removing dandruff, promoting the growth of hair, restoring it to its original color, and without any deleterious effects. It is far superior to anything of the kind I have ever seen." Send for Circular. Highest testimonials: **At druggists. Price, \$1.00 a bottle; if your druggist has not got it, send us \$1.00 and we will send you a bottle. Sample Bottles 35 Cents.**

To Find the Day of the Week in any Year.

The following principle covers all cases: Add to the number of days in excess of 364 of all preceding years the number of days from December 31, of the last preceding year, divide by seven, and the remainder, commencing with nothing for Saturday, will give the day of the week, Sunday being the "first day." An illustration, February 25, 1916:

One day excess for each ordinary year (365 days)	1,916
One additional day excess for each prior leap year except century years, one quarter of 1,915, equal to 478, less 19	459
One additional day excess for each 400 years prior to current year	4
Days since December 31, 1915	56
<b>Total excess in days</b>	<b>2,435</b>
Excess in weeks	347
Additional excess in days	6
Answer, Friday.	

In the form of a rule it might be put this way.

To the number of the year add the following: One-fourth the number of the preceding year, 1-400 of the number of the preceding year and the number of days since December 31 of the preceding year; from the sum subtract 1-100 of the number of the preceding year and divide the result by seven. The remainder is the key number for the day of the week.

TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude 37° 32' 21" N., and in Longitude 77° 25' 35" W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made necessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of longitude makes a difference of 4 minutes, and that in this latitude a degree of longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east; and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes; Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

Almanack Calculations for 1918.

The year 1918 comprises the latter part of the 142d and the beginning of the 143rd year of American Independence, and corresponds to—

- The year 6631 of the Julian Period.
- The year 5678-79 of the Jewish Era. The year 5679 begins at sunset September 6, 1918
- The year 2671 since the foundation of Rome according to Varro.
- The year 2578 of the Japanese Era, being the 7th year of "Taisho." which begins January 1, 1918.
- The year 1337 of the Mohammedan Era, or the Era of the Hegira, begins at sunset on the 6th of October, 1918.
- The first day of January, 1918, is the 2,421,535th day since the commencement of the Julian Period.

## Cured His Piles

**Now 88 Years Old, But Works at Trade of Blacksmith and Feels Younger Since Piles are Gone.**

The oldest active blacksmith in Michigan is still pounding his anvil in the town of Homer—thanks to my internal method for curing piles.

I wish that you could hear him tell of his many experiences with ointments, suppositories, etc., before he tried my method. Here is a letter just received from him:

Homer, Mich., June 27, 1917.

Mr. E. R. Page, Marshall, Mich.

Dear Sir: I want you to know what your treatment has done for me. I have suffered with piles for many years and used suppositories and all kinds of treatments, but never got relief until I tried yours. Am now completely cured. Although I am 88 years old, and the oldest active blacksmith in Michigan, I feel years younger since the piles have left me. I will surely recommend it to all I know who suffer this way. You can use my letter any way you wish, and I hope it will lead others to try this wonderful remedy.

Yours truly, J. L. LYON.

Don't let a doctor cut you and don't waste money on foolish salves and suppositories, but send today for a Free Trial of my internal method for the Permanent Cure of Piles.

I especially want to send it to those apparently hopeless cases where all forms of salves, suppositories, etc., have failed.

## Table for Foretelling the Weather Throughout Each Year.

IF THE NEW MOON, FIRST QUARTER, FULL MOON OR LAST QUARTER, HAPPENS—	IN SUMMER.	IN WINTER.
Between midnight and 2 o'clock...	Fair.....	Frost unless wind S. W.
" 2 and 4 morning.....	Cold and showers...	Snow and stormy.
" 4 and 6 ".....	Rain.....	Rain.
" 6 and 8 ".....	Wind and rain .....	Stormy.
" 8 and 10 ".....	Changeable.....	Cold rain if wind W., snow if E.
" 10 and 2 ".....	Frequent showers...	Cold and high wind.
" 12 and 2 afternoon.....	Very rainy .....	Snow or rain.

" 4 and 6 ".....	Fair .....	Fair.
" 6 and 8 ".....	Fair if wind N. E..	Fair and frosty if wind N., or N. E.
" 8 and 10 ".....	Rainy if S. or S. W..	Rain or snow if S., or S. W.
" 10 and midnight.....	Fair .....	Fair and frosty.

## OBSERVATIONS.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.

2. The space for this calculation occupies from ten at night till two next morning.

3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.

4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.

5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.

Nor shall any person shoot at or kill wild fowl except from the land, or from batteries, sink boxes, points, or blinds, in the said waters thereof: provided, however, that any person who may have crippled ducks, geese, or swan over his own decoys may reshoot and capture such game from boats immediately after same shall have been shot down. Nor shall any person shoot at or kill wild fowl on Wednesday and Saturday of each and every week, either on or from the land, or on or from the said waters of Back bay or its tributaries.

2. It shall not be lawful for any person to use deck or cabin boats, float houses, rafts or platforms built over the water for the purpose of gunning, shooting, or hunting in the waters of Back bay or its tributaries.

3. It shall be unlawful to shoot over decoys in the waters of Back bay or its tributaries between the first day of April and the twentieth day of October.

4. It shall not be lawful for non-residents to shoot at or kill wild fowl at any time or in any manner for profit or sale, either directly or indirectly, unless they own or rent shores on the said waters of Back bay; in which event they shall conform and be subject to all the provisions of this act.

5. All persons offending against any of the provisions of this act shall, upon conviction thereof, be deemed guilty of a misdemeanor, and fined not less than fifty dollars nor more than one hundred and fifty dollars, or shall be imprisoned in the county jail of Princess Anne county for a period not less than thirty days and not exceeding ninety days, or be subject to both fine and imprisonment, as herein provided. One half of the fine so imposed shall go to the informer; and, moreover, all guns, skiffs, floats; batteries, sink boxes, blinds, or other devices used in the commission of the offense shall be sold by order of the county court of Princess Anne county, and the proceeds thereof forfeited to the Commonwealth.

6. Provided, that nothing in this act shall be so construed as to prohibit shooting a duck known as a "peeler," or "blue peter," in any way after the first day of February of each year.

## UNITED STATES POSTAGE LAWS.

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

### First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment under 2nd, 3rd and 4th class mail.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents.

Postal cards issued by the Post Office Department may bear written, printed, or other additions as follows:

(a) The face of the card may be divided by a vertical line placed approximately one-third of the distance from the left end of the card; the space to the left of the line to be used for a message, etc., but the space to the right for the address only.

(b) Addresses upon postal cards \* \* \* may be either written, printed, or affixed thereto, at the option of the sender.

(c) Very thin sheets of paper may be attached to the card on condition that they completely adhere thereto.

(d) Advertisements, illustrations, or writing may appear on the back of the card and on the left third of the face.

2. The addition to a postal card of matter other than as above authorized destroys its privilege as a postal card and subjects it to postage according to the character of the message—at the letter rate if wholly or partly in writing, or the third-class rate if entirely in print—but does not impair the postage value of the stamp impressed on the card.

A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be conclusively a part of the address and therefore permissible. Cards that have been spoiled in printing or otherwise will be redeemed at 75 per cent. of face value. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each.

Private mailing cards (post cards) in the domestic mails shall conform to the following conditions:

(a) A post card shall be an unfolded piece of cardboard not exceeding approximately 3 9-16 by 5 9-16 inches nor less than approximately 2 1/4 by 4 inches.

(b) It shall be in form and in the quality and weight of paper substantially like the Government postal card.

(c) It may be of any color not interfering with a legible address and postmark.

(d) It may or may not, at the option of the sender, bear near the top of the face the words "Post Card."

(e) The face of the card may be divided by a vertical line; the left half to be used for a message, etc., but that to the right for the address only.

(f) Very thin sheets of paper may be attached to the card, and then only on condition that they completely adhere thereto.

(g) Advertisements and illustrations may appear on the back of the card and on the left half of the face.

2. It is desirable that post cards bear in the upper right corner of the face an oblong diagram containing the words "Please place postage stamp here" and at the bottom the words "This space for the address."

(3) Cards which do not conform to the prescribed conditions shall be charged with postage according to the character of the message—at the letter rate if wholly or partly in writing, or the third class rate if entirely in print.

(4) Cards bearing particles of glass, metal, mica, sand, tinsel, or other similar substances, shall not be accepted for mailing, except when enclosed in envelopes

CLYDE W. SAUNDERS, Printer and Publisher, Richmond

# Say *Taka-Kola* and see that you get it

tightly sealed to prevent the escape of such particles, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

These cards mailed to foreign countries, require two cents.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. Ten cents in ordinary stamps affixed to a letter will entitle it to special delivery if the words "Special Delivery" are marked on the letter. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Prepaid letters will be forwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

## Second-Class Matter.

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents, and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the bulletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Do you love your wife and children? There is no better evidence of the fact than a policy of protection in **Atlantic Life Insurance Company, Richmond, Virginia.**

Such Christmas, New Years, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery fee is affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

### **Third-Class Matter.**

Mail matter of the third-class includes printed books, pamphlets, engravings circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwardd.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery fee is affixed in addition to the regular postage.

Upon matter of the third-class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

### **Fourth-Class Matter.**

The affixing of special delivery fee in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad order will not be forwarded in any case.

Firearms may only be sent unloaded.

Fourth-class matter embraces that known as domestic parcel post mail, and includes merchandise, farm and factory products, seeds, cuttings, bulbs, roots, scions, and plants, books (including catalogs), miscellaneous printed matter weighing more than 4 pounds, and all other mailable matter not embraced in the first, second, and third classes.

The domestic parcel post offers a convenient, quick, and efficient means of transporting mailable parcels to any post office in the United States or its possessions. The service reaches more places than any other transportation agency

It brings producers and consumers into closer contact, thus opening the way to reducing the high cost of living. Special treatment and advantages are accorded to shipments of farm products weighing between 2½ and 50 pounds. Low postage rates, based on the service rendered, are provided. The rates to nearby zones are particularly advantageous. Parcels may be insured against loss and may be sent C. O. D., and as special delivery matter.

Rates of postage on fourth-class or parcel post matter—to be fully prepaid—unsealed—are as follows:

(a) Parcels weighing 4 ounces or less, except books, seeds, plants, etc., 1 cent for each ounce or fraction thereof, any distance.

(b) Parcels weighing 8 ounces or less containing books, seeds, cuttings, bulbs, roots, scions, and plants, 1 cent for each 2 ounces or fraction thereof, regardless of distance.

(c) Parcels weighing more than 8 ounces containing books, seeds, plants, etc., parcels of miscellaneous printed matter weighing more than 4 ounces are chargeable, according to distance or zone, at the pound rates, a fraction of a pound being considered a full pound:

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tight-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is the same as other fourth-class matter, or parcel post.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering postmaster may also be written asking him to return the package if not delivered.

#### **Registration.**

Postmasters shall register all mailable matter properly prepared and offered for that purpose except domestic matter of the fourth class.

(2) Money sent at the first-class rate and other valuable matter of the first, second, and third classes sent by mail should be registered.

The fee on registered matter, domestic or foreign, shall be 10 cents in addition to the postage for each letter or parcel, both to be fully prepaid by stamps affixed.

Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed if required. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed \$50.00 for any one registered piece or the actual value of the piece if it is less than \$50.00—shall be paid for the loss of first class registered matter, and not exceeding \$25.00 in any one case of third-class mail matter.

#### **Domestic Money Orders.**

Domestic money orders are issued by money-order postoffices for any amount up to \$100, at the following rates:

For sums not exceeding \$2.50, 3 cents; over \$2.50, to \$5, five cents; over \$5 to \$10, eight cents; over \$10 to \$20, ten cents; over \$20 to \$30, twelve cents; over \$30 to \$40, fifteen cents; over \$40 to \$50, eighteen cents; over \$50 to \$60, twenty cents; over \$60 to \$75, twenty-five cents; over \$75 to \$100, thirty cents.

**Stamped Envelopes.**

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.

2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.

3. All periodicals sent to subscribers within the county where printed.

4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.

**To Find the Day of the Week in any Year.**

The following principle covers all cases: Add to the number of days in excess of 364 of all preceding years the number of days from December 31, of the last preceding year, divide by seven, and the remainder, commencing with nothing for Saturday, will give the day of the week, Sunday being the "first day." An illustration, February 25, 1916:

One day excess for each ordinary year (365 days) . . . . .	1,916
One additional day excess for each prior leap year except century years, one quarter of 1,915, equal to 478, less 19 . . . . .	459
One additional day excess for each 400 years prior to current year . . . . .	4
Days since December 31, 1915 . . . . .	56
<hr/>	
Total excess in days . . . . .	2,435
Excess in weeks . . . . .	347
Additional excess in days . . . . .	6
Answer, Friday.	

In the form of a rule it might be put this way.

To the number of the year add the following: One-fourth the number of the preceding year, 1-400 of the number of the preceding year and the number of days since December 31 of the preceding year; from the sum subtract 1-100 of the number of the preceding year and divide the result by seven. The remainder is the key number for the day of the week.

### TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude  $37^{\circ} 32' 21''$  N., and in Longitude  $77^{\circ} 25' 35''$  W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made necessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes, and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of longitude makes a difference of 4 minutes, and that in this latitude a degree of longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east; and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes, Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

## Cured His Piles

Now 88 Years Old, But Works at Trade of Blacksmith and Feels Younger Since Piles are Gone.

The oldest active blacksmith in Michigan is still pounding his anvil in the town of Homer—thanks to my internal method for curing piles.

I wish that you could hear him tell of his many experiences with ointments, suppositories, etc., before he tried my method. Here is a letter just received from him:

Homer, Mich., June 27, 1917.

Mr. E. R. Page, Marshall, Mich.

Dear Sir: I want you to know what your treatment has done for me. I have suffered with piles for many years and used suppositories and all kinds of treatments, but never got relief until I tried yours. Am now completely cured. Although I am 88 years old, and the oldest active blacksmith in Michigan, I feel years younger since the piles have left me. I will surely recommend it to all I know who suffer this way. You can use my letter any way you wish, and I hope it will lead others to try this wonderful remedy.

Yours truly, J. L. LYON.

Don't let a doctor cut you and don't waste money on foolish salves and suppositories, but send to-day for a Free Trial of my internal method for the Permanent Cure of Piles.

I especially want to send it to those apparently hopeless cases where all forms of salves, suppositories, etc., have failed.

## Table for Foretelling the Weather Throughout Each Year.

IF THE NEW MOON, FIRST QUARTER, FULL MOON OR LAST QUARTER, HAP- PENS—	IN SUMMER.	IN WINTER.
Between midnight and 2 o'clock...	Fair.....	Frost unless wind S. W.
“ 2 and 4 morning.....	Cold and showers...	Snow and stormy.
“ 4 and 6 “.....	Rain.....	Rain.
“ 6 and 8 “.....	Wind and rain .....	Stormy.
“ 8 and 10 “.....	Changeable.....	Cold rain if wind W., snow if E.
“ 10 and 2 “.....	Frequent showers...	Cold and high wind.
“ 12 and 2 afternoon .....	Very rainy .....	Snow or rain.
“ 2 and 4 “.....	Changeable.....	Fair and mild.
“ 4 and 6 “.....	Fair .....	Fair.
“ 6 and 8 “.....	Fair if wind N. E...	Fair and frosty if wind N., or N. E.
“ 8 and 10 “.....	Rainy if S. or S. W..	Rain or snow if S., or S. W.
“ 10 and midnight .....	Fair .....	Fair and frosty.

## OBSERVATIONS.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.

2. The space for this calculation occupies from ten at night till two next morning.

3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.

4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.

5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.

## UNITED STATES POSTAGE LAWS.

All mailable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

### First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment under 2nd, 3rd and 4th class mail.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents.

Postal cards issued by the Post Office Department may bear written, printed, or other additions as follows:

(a) The face of the card may be divided by a vertical line placed approximately one-third of the distance from the left end of the card; the space to the left of the line to be used for a message, etc., but the space to the right for the address only.

(b) Addresses upon postal cards \* \* \* may be either written, printed, or affixed thereto, at the option of the sender.

(c) Very thin sheets of paper may be attached to the card on condition that they completely adhere thereto.

(d) Advertisements, illustrations, or writing may appear on the back of the card and on the left third of the face.

2. The addition to a postal card of matter other than as above authorized destroys its privilege as a postal card and subjects it to postage according to the character of the message—at the letter rate if wholly or partly in writing, or the third-class rate if entirely in print—but does not impair the postage value of the stamp impressed on the card.

A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be conclusively a part of the address and heretofore permissible. Cards that have been spoiled in printing or otherwise will be redeemed at 75 per cent. of face value. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each.

Private mailing cards (post cards) in the domestic mails shall conform to the following conditions:

(a) A post card shall be an unfolded piece of cardboard not exceeding approximately 3 9-16 by 5 9-16 inches nor less than approximately 2 3/4 by 4 inches.

(b) It shall be in form and in the quality and weight of paper substantially like the Government postal card.

(c) It may be of any color not interfering with a legible address and postmark.

(d) It may or may not, at the option of the sender, bear near the top of the face the words "Post Card."

(e) The face of the card may be divided by a vertical line; the left half to be used for a message, etc., but that to the right for the address only.

(f) Very thin sheets of paper may be attached to the card, and then only on condition that they completely adhere thereto.

(g) Advertisements and illustrations may appear on the back of the card and on the left half of the face.

2. It is desirable that post cards bear in the upper right corner of the face an oblong diagram containing the words "Please place postage stamp here" and at the bottom the words "This space for the address."

(3) Cards which do not conform to the prescribed conditions shall be charged with postage according to the character of the message—at the letter rate if wholly or partly in writing, or the third class rate if entirely in print.

(4) Cards bearing particles of glass, metal, mica, sand, tinsel, or other similar substances, shall not be accepted for mailing, except when enclosed in envelopes

LYDE W. SAUNDERS, Printer and Publisher, Richmond

# Say *Taka-Kola* and see that you get it

tightly sealed to prevent the escape of such particles, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

These cards mailed to foreign countries, require two cents.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. Ten cents in ordinary stamps affixed to a letter will entitle it to special delivery if the words "Special Delivery" are marked on the letter. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Prepaid letters will be forwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

## Second-Class Matter.

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents, and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the bulletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Do you love your wife and children? There is no better evidence of the fact than a policy of protection in **Atlantic Life Insurance Company**, Richmond, Virginia.

Such Christmas, New Years, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery fee is affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

### **Third-Class Matter.**

Mail matter of the third-class includes printed books, pamphlets, engravings circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery fee is affixed in addition to the regular postage.

Upon matter of the third-class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

### **Fourth-Class Matter.**

The affixing of special delivery fee in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad odor will not be forwarded in any case. Firearms may only be sent unloaded.

Fourth-class matter embraces that known as domestic parcel post mail, and includes merchandise, farm and factory products, seeds, cuttings, bulbs, roots, flowers, and plants, books (including catalogs), miscellaneous printed matter weighing more than 4 pounds, and all other mailable matter not embraced in the first, second, and third classes.

The domestic parcel post offers a convenient, quick, and efficient means of transporting mailable parcels to any post office in the United States or its possessions. The service reaches more places than any other transportation agency.

It brings producers and consumers into closer contact, thus opening the way to reducing the high cost of living. Special treatment and advantages are accorded to shipments of farm products weighing between 2½ and 50 pounds. Low postage rates, based on the service rendered, are provided. The rates to nearby zones are particularly advantageous. Parcels may be insured against loss and may be sent C. O. D., and as special delivery matter.

Rates of postage on fourth-class or parcel post matter—to be fully prepaid—unsealed—are as follows:

(a) Parcels weighing 4 ounces or less, except books, seeds, plants, etc., 1 cent for each ounce or fraction thereof any distance.

(b) Parcels weighing 8 ounces or less containing books, seeds, cuttings, bulbs, roots, scions, and plants, 1 cent for each 2 ounces or fraction thereof, regardless of distance.

(c) Parcels weighing more than 8 ounces containing books, seeds, plants, etc., parcels of miscellaneous printed matter weighing more than 4 ounces are chargeable, according to distance or zone, at the pound rates, a fraction of a pound being considered a full pound:

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tight-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is the same as other fourth-class matter, or parcel post.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering postmaster may also be written asking him to return the package if not delivered.

### **Registration.**

Postmasters shall register all mailable matter properly prepared and offered for that purpose except domestic matter of the fourth class.

(2) Money sent at the first-class rate and other valuable matter of the first, second, and third classes sent by mail should be registered.

The fee on registered matter, domestic or foreign, shall be 10 cents in addition to the postage for each letter or parcel, both to be fully prepaid by stamps affixed.

Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed if required. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed \$50 00 for any one registered piece or the actual value of the piece if it is less than \$50 00—shall be paid for the loss of first class registered matter, and not exceeding \$25 00 in any one case of third-class mail matter.

### **Domestic Money Orders.**

Domestic money orders are issued by money-order postoffices for any amount up to \$100, at the following rates:

For sums not exceeding \$2.50, 3 cents; over \$2.50, to \$5, five cents; over \$5 to \$10, eight cents; over \$10 to \$20, ten cents; over \$20 to \$30, twelve cents; over \$30 to \$40, fifteen cents; over \$40 to \$50, eighteen cents; over \$50 to \$60, twenty cents; over \$60 to \$75, twenty-five cents; over \$75 to \$100, thirty cents.

### Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.

2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.

3. All periodicals sent to subscribers within the county where printed.

4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.

5. The Vice-President, Members and Members-elect, and Delegates and Delegates-elect to Congress may frank any mail matter, not over two ounces in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

## RHEUMATISM

**Remarkable Home Cure Given by One Who Had  
It—He Wants Every Sufferer to Benefit.**

**SEND NO MONEY—JUST YOUR ADDRESS**

"I had sharp pains like lightning flashes shooting through my joints."

Years of awful suffering and misery have taught this man, Mark H. Jackson, of Syracuse, N. Y., how terrible an enemy to human happiness rheumatism is, and have given him sympathy with all unfortu-

nates who are within its grasp. He wants every rheumatic victim to know how he was cured. Read what he says:

"In the spring of 1893 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatism, and it effected a cure in every case.

I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent: simply mail your name and address, and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your Rheumatism, you may send the price of it—one dollar—but, understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write to-day.

**Would You Like to Quit Tobacco Quickly and Easily and Enjoy Yourself a Thousand Times Better While in Robust Health?**

**STOP RUINING YOUR LIFE**

Why continue to commit slow suicide when you can live a really contented life, if you only get your body and nerves right? It is unsafe and torturing to attempt to rid oneself of tobacco by suddenly stopping with "will-power"—don't do it. The correct way is to eliminate nicotine poison from the system, and genuinely overcome the craving.

Tobacco is poisonous and seriously injures health in several ways, causing such disorders as nervous dyspepsia, sleeplessness, gas belching, gnawing, or other uncomfortable sensation in stomach; constipation, headache, weak eyes, loss of vigor, red spots on skin, throat irritation, catarrh, asthma, bronchitis, heart failure, melancholy, lung trouble, impure (poisoned) blood, heartburn, torpid liver, loss of appetite, bad teeth, foul breath, lassitude, lack of ambition, weakening and falling out of hair and many other disorders.

Overcome that peculiar nervousness and craving for cigarettes, cigars, pipe, chewing tobacco, or snuff.

Here is an opportunity to receive FREE a carefully compiled treatise on the subject, containing interesting and valuable information that you should be glad to learn about. This book tells all about the renowned **THREE DAYS' METHOD** by which thousands and thousands saved themselves from the life-wrecking tobacco habit. Full particulars, including the book on tobacco and snuff habit, will be mailed FREE TO YOU, in plain wrapper, postpaid. All you need do is merely REQUEST IT. A postcard will do. Address:

**EDWARD J. WOODS, TA-44, Station F, New York, N.Y.**

NOTE.—To those who are injuring their health, making themselves nervous, dyspeptic, etc., by excessive use of cigarettes, cigars, pipe, snuff or chewing tobacco:—now you may easily become your own master.

# New Hair Growth After BALDNESS

## HAIR GROWN ON MR. BRITTAIN'S BALD HEAD BY INDIANS' MYSTERIOUS HAIR GROWER

My head at the top and back was absolutely bald. The scalp was shiny. An expert said that he thought the hair roots were extinct, and there was no hope of my ever having a new hair growth.

Yet now, at an age over 66, I have a luxuriant growth of soft, strong, lustrous hair! No trace of baldness. The pictures shown here are from my photographs.

### INDIANS' SECRET OF HAIR GROWTH

*Photo when bald.*

At a time when I had become discouraged at trying various hair lotions, tonics, specialists' treatments, etc., I came across, in my travels, a Cherokee Indian "medicine man" who had an elixir that he asseverated would grow my hair. Although I had but little faith, I gave it a trial. To my amazement a light fuzz soon appeared. It developed, day by day, into a healthy growth, and ere long my hair was as prolific as in my youthful days.

*That I was astonished and happy is expressing my state of mind mildly*

Obviously, the hair roots had not been dead, but were dormant in the scalp, awaiting the fertilizing potency of the mysterious pomade.

I negotiated for and came into possession of the principle for preparing this mysterious elixir, now called Kotalko, and later had the recipe put into practical form by a chemist.

That my own hair growth was permanent has been amply proved. Many men and women, also children, have reported satisfactory results from Kotalko.

*From recent photo.*

## How YOU May Grow YOUR Hair

*For women's hair.*

My honest belief is that hair roots rarely die even when the hair falls out through dandruff, fever, excessive dryness or other disorders. I have been told by experts that often when hair falls out the roots become imbedded within the scalp, covered by hard skin, so that they remain for a time like bulbs or seeds in a bottle which will grow when fertilized. Shampoos (which contain alkalis) and hair lotions which contain alcohol are enemies to the hair, as they dry it, making it brittle. Kotalko contains those elements of nature which give new vitality to the scalp and hair. To prove the **GENUINENESS** of Kotalko, I will send the recipe **FREE** on request. Or I will mail a testing box of Kotalko with the recipe for 10 cents, silver or stamps, if you mention this publication. Satisfy yourself. You want to stop falling hair, eliminate dandruff or cover that bald spot with healthy hair. Get the dime testing box NOW, apply once or twice daily—watch in your mirror! Address:

## TIME OF THE ALMANACK.

This Almanack is calculated with much care, and with more than usual accuracy, for the geographical position of Richmond, Va., which is in Latitude 37° 32' 21'' N., and in Longitude 77° 25' 35'' W. It is adapted for use in Virginia, Maryland and North Carolina.

The Time employed is Mean Solar or Clock Time, with the changes made necessary by the adoption of what is known as Standard Time. Virginia, North Carolina and Maryland, under this system, use the Eastern Standard, which is the time of the 75th meridian. This time is faster than Richmond time by about 10 minutes; and all our clocks and watches were advanced this much when the arrangement was adopted. The Almanack has been made to conform to this change so that it now gives the exact moment of sunrise, &c., for the city of Richmond, and other places of the same longitude, in the authorized time of the city, as kept by any well-regulated time-piece. To get exact results for other places, it must be remembered that each degree of longitude makes a difference of 4 minutes, and that in this latitude a degree of longitude is about 55 miles *due* east and west. Hence the following rule: If the place is west of Richmond *add* to the times as given in the Almanack 4 minutes for every 55 miles that it is *due* west. If it is east of Richmond *subtract* 4 minutes for every 55 miles that it is *due* east; and for smaller distances in proportion. For example: Charlottesville would *add* 4 minutes; Raleigh, N. C., 5 minutes; Staunton and Lynchburg 7 minutes, Danville 8 minutes; but Norfolk and Baltimore would *subtract* 4 minutes; while Petersburg and Fredericksburg would make no change.

### Table for Foretelling the Weather Throughout Each Year.

IF THE NEW MOON, FIRST QUARTER, FULL MOON OR LAST QUARTER, HAP- PENS—	IN SUMMER.	IN WINTER.
Between midnight and 2 o'clock...	Fair.....	Frost unless wind S. W.
“ 2 and 4 morning.....	Cold and showers...	Snow and stormy.
“ 4 and 6 “ .....	Rain.....	Rain.
“ 6 and 8 “ .....	Wind and rain .....	Stormy.
“ 8 and 10 “ .....	Changeable.....	Cold rain if wind W., snow if E.
“ 10 and 2 “ .....	Frequent showers...	Cold and high wind.
“ 12 and 2 afternoon .....	Very rainy .....	Snow or rain.
“ 2 and 4 “ .....	Changeable.....	Fair and mild.
“ 4 and 6 “ .....	Fair .....	Fair.
“ 6 and 8 “ .....	Fair if wind N. E...	Fair and frosty if wind N., or N. E.
“ 8 and 10 “ .....	Rainy if S. or S. W..	Rain or snow if S., or S. W.
“ 10 and midnight .....	Fair .....	Fair and frosty.

### OBSERVATIONS.

1. The nearer the time of the Moon's change, first quarter, full and last quarter are to *midnight*, the fairer will be the weather during the next seven days.

2. The space for this calculation occupies from ten at night till two next morning.

3. The nearer to *midday* or *noon* the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.

4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the Summer, though they affect Spring and Autumn nearly in the same ratio.

5. The Moon's change, first quarter, full and last quarter, happening during six of the afternoon hours, *i. e.*, from four to ten, may be followed by fair weather; but this is mostly dependent on the *wind*, as is noted in the table.

3. It shall be unlawful to shoot over decoys in the waters of Back bay or its tributaries between the first day of April and the twentieth day of October.

4. It shall not be lawful for non-residents to shoot at or kill wild fowl at any time or in any manner for profit or sale, either directly or indirectly, unless they own or rent shores on the said waters of Back bay; in which event they shall conform and be subject to all the provisions of this act.

5. All persons offending against any of the provisions of this act shall, upon conviction thereof, be deemed guilty of a misdemeanor, and fined not less than fifty dollars nor more than one hundred and fifty dollars, or shall be imprisoned in the county jail of Princess Anne county for a period not less than thirty days and not exceeding ninety days, or be subject to both fine and imprisonment, as herein provided. One half of the fine so imposed shall go to the informer; and, moreover, all guns, skiffs, floats, batteries, sink boxes, blinds, or other devices used in the commission of the offense shall be sold by order of the county court of Princess Anne county, and the proceeds thereof forfeited to the Commonwealth.

6. Provided, that nothing in this act shall be so construed as to prohibit shooting a duck known as a "peeler," or "blue peter," in any way after the first day of February of each year.

## UNITED STATES POSTAGE LAWS.

All mallable matter for transmission by the United States mails within the United States is divided into four classes, under the following regulations:

### First-Class Matter.

This class includes letters, postal cards, and anything sealed or otherwise closed against inspection, or anything containing writing not allowed as an accompaniment under 2nd, 3rd and 4th class mail.

Rates of letter postage to any part of the United States, **two cents per ounce** or fraction thereof.

Rates on local or drop letters at free delivery offices, two cents per ounce or fraction thereof. At offices where there is no free delivery by carriers, one cent per ounce or fraction thereof.

Rates on postal cards, one cent. Double or reply cards, two cents.

Postal cards issued by the Post Office Department may bear written, printed, or other additions as follows:

(a) The face of the card may be divided by a vertical line placed approximately one-third of the distance from the left end of the card; the space to the left of the line to be used for a message, etc., but the space to the right for the address only.

(b) Addresses upon postal cards \* \* \* may be either written, printed, or affixed thereto, at the option of the sender.

(c) Very thin sheets of paper may be attached to the card on condition that they completely adhere thereto.

(d) Advertisements, illustrations, or writing may appear on the back of the card and on the left third of the face.

2. The addition to a postal card of matter other than as above authorized destroys its privilege as a postal card and subjects it to postage according to the character of the message—at the letter rate if wholly or partly in writing, or the third-class rate if entirely in print—but does not impair the postage value of the stamp impressed on the card.

A card containing any offensive dun or any scurrilous or indecent communication will not be forwarded. The rule that has heretofore existed excluding from the face of a postal card words indicating the occupation or business of the addressee, has been revoked. In future these additions, or others of a like general character, will be held to be conclusively a part of the address and therefore permissible. Cards that have been spoiled in printing or otherwise will be redeemed at 75 per cent. of face value. Double or reply postal cards must be folded before being mailed.

Private mailing cards bearing written messages can be transmitted in the domestic mails at the postal charge of one cent each.

Private mailing cards (post cards) in the domestic mails shall conform to the following conditions:

(a) A post card shall be an unfolded piece of cardboard not exceeding approximately 3 9-16 by 5 9-16 inches nor less than approximately 2 1/4 by 4 inches.

(b) It shall be in form and in the quality and weight of paper substantially like the Government postal card.

(c) It may be of any color not interfering with a legible address and postmark.

(d) It may or may not, at the option of the sender, bear near the top of the face the words "Post Card."

(e) The face of the card may be divided by a vertical line; the left half to be used for a message, etc., but that to the right for the address only.

(f) Very thin sheets of paper may be attached to the card, and then only on condition that they completely adhere thereto.

(g) Advertisements and illustrations may appear on the back of the card and on the left half of the face.

2. It is desirable that post cards bear in the upper right corner of the face an oblong diagram containing the words "Please place postage stamp here" and at the bottom the words "This space for the address."

(3) Cards which do not conform to the prescribed conditions shall be charged with postage according to the character of the message—at the letter rate if wholly or partly in writing, or the third class rate if entirely in print.

(4) Cards bearing particles of glass, metal, mica, sand, tinsel, or other similar substances, shall not be accepted for mailing, except when enclosed in envelopes

# Say *Taka-Kola* and see that you get it

tightly sealed to prevent the escape of such particles, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

These cards mailed to foreign countries, require two cents.

Rates on specially delivered letters, ten cents on each letter in addition to the regular postage. This entitles the letter to immediate delivery by special messenger. Special delivery stamps are sold at postoffices, and must be affixed to such letters. Ten cents in ordinary stamps affixed to a letter will entitle it to special delivery if the words "Special Delivery" are marked on the letter. The delivery, at carrier offices, extends to the limits of the carrier routes. At non-carrier offices it extends to one mile from the post office. Postmasters are not obliged to deliver beyond these limits, and letters addressed to places beyond must await delivery in the usual way, notwithstanding the special delivery stamp.

Prepayment by stamps invariably required. Postage on all letters should be fully prepaid, but if prepaid one full rate and no more they will be forwarded, and the amount of deficient postage collected on delivery; if wholly unpaid, or prepaid with less than one full rate and deposited at a postoffice, the addressee will be notified to remit postage, and if he fails to do so, they will be sent to the Dead Letter Office; but they will be returned to the sender if he is located at the place of mailing, and if his address be printed or written upon them.

Letter rates are charged on all productions by the typewriter or manifold process, and on all printed imitations of typewriting or manuscript, unless such reproductions are presented at postoffice windows in minimum number of twenty identical copies.

Letters (but no other class of mail matter) will be returned to the sender free, if a request to that effect is printed or written on the envelope. There is no limit of weight for first-class matter.

Prepaid letters will be forwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage. The direction on forwarded letters may be changed as many times as may be necessary to reach the person addressed.

## Second-Class Matter.

This class includes all newspapers, periodicals, or matter exclusively in print and regularly issued at stated intervals as frequently as four times a year, from a known office of publication or news agency, to actual subscribers or news agents, and transient newspapers and publications of this character mailed by persons other than publishers. Also periodical publications of benevolent and fraternal societies, etc. This applies to all reports and the like made by officers of societies organized under the lodge system and having a membership of a thousand persons, and of the bulletins and proceedings of strictly professional, literary, historical, and scientific associations and institutions, trade unions, etc., provided only that these be published not less often than four times a year, and that they be printed on and bound in paper. Publishers who wish to avail themselves of the privileges of the act are required to make formal application to the department through the postmaster at the place of publication, producing satisfactory evidence that the organizations represented come within the purview of the law, and that the object of the publications is to further the objects and purposes of the organizations.

Rates of postage to publishers, one cent a pound or fractional part thereof, prepaid in currency. Publications designed primarily for advertising or free circulation, or not having a legitimate list of subscribers, are excluded from the pound rate, and pay third-class rates.

Whenever the general character and manner of issue of a periodical publication is changed in the interest of the publisher, or of an advertiser or other person, by the addition of unusual quantities of advertisements, or of matter different from that usually appearing in the publication, or calculated to give special prominence to some particular business or businesses, or otherwise—especially where large numbers of copies are circulated by or in the interest of particular persons, or where there is to be an excessive number of alleged sample copies mailed, or where the issue is to be sold at a special and different price than that charged for the customary issues, the second-class rates of postage will be denied that issue; and if there be repeated instances of such irregularities, the publication will be excluded from the mails as second-class matter.

Do you love your wife and children? There is no better evidence of the fact than a policy of protection in **Atlantic Life Insurance Company, Richmond, Virginia.**

Such Christmas, New Years, and other special issues, including Almanacs, as are excluded from the second-class privileges by the terms above specified may be transmitted by mail only when prepaid by postage stamps at the rate applicable to third-class matter—one cent for each two ounces or fraction thereof.

Publications sent to actual subscribers in the county where published, are free, unless mailed for local delivery at a letter-carrier office.

Rates of postage on transient newspapers, magazines, or periodicals, one cent for each four ounces or fraction thereof. It should be observed that the rate is one cent for each four ounces, not one cent for each paper contained in the same wrapper. Second-class matter will be entitled to special delivery, when special delivery fee is affixed in addition to the regular postage.

Transient second-class matter must be so wrapped as to enable the postmaster to inspect it. The sender's name and address may be written in them, but any other writing subjects the matter to letter postage. The name and address of the sender may also be written on the wrapper.

### **Third-Class Matter.**

Mail matter of the third-class includes printed books, pamphlets, engravings circulars (in print or by the hectograph, electric pen, or similar process), and other matter wholly in print, proof-sheets, corrected proof-sheets, and manuscript copy accompanying the same.

The rate on matter of this class is one cent for each two ounces or fraction thereof.

Manuscript unaccompanied by proof-sheets must pay letter rates.

Third-class matter must admit of easy inspection, otherwise it will be charged letter rates on delivery. It must be fully prepaid, or it will not be forwarded.

The limit of weight is four pounds, except single books in separate packages, on which the weight is not limited. It is entitled, like matter of the other classes, to special delivery, when special delivery fee is affixed in addition to the regular postage.

Upon matter of the third-class, or upon the wrapper or envelope enclosing the same, or the tag or label attached thereto, the sender may write his own name, occupation and residence or business address, preceded by the word "from," and may make marks other than by written or printed words to call attention to any word or passage in the text and may correct any typographical errors. There may be placed upon the blank leaves or cover of any book, or printed matter of the third-class, a simple manuscript dedication or inscription, not of the nature of a personal correspondence. Upon the wrapper or envelope of third-class matter, or the tag or label attached thereto, may be printed any matter mailable as third-class, but there must be left on the address side a space sufficient for the legible address and necessary stamps.

### **Fourth-Class Matter.**

The affixing of special delivery fee in addition to the regular postage, entitles fourth-class matter to special delivery. (See remarks under "first-class matter.")

Articles of this class that are liable to injure or deface the mails, such as glass, needles, nails, pens, etc., must be first wrapped in a bag, box, or open envelope and then secured in another outside tube or box, made of metal or hard wood, without sharp corners or edges, and having a sliding clasp or screw lid, thus securing the articles in a double package. The public should bear in mind that the first object of the department is to transport the mails safely, and every other interest is made subordinate.

Such articles as poisons, explosives, or inflammable articles, live animals, insects, or substances exhaling a bad odor will not be forwarded in any case.

Firearms may only be sent unloaded.

Fourth-class matter embraces that known as domestic parcel post mail, and includes merchandise, farm and factory products, seeds, cuttings, bulbs, roots, scions, and plants, books (including catalogs), miscellaneous printed matter weighing more than 4 pounds, and all other mailable matter not embraced in the first, second, and third classes.

The domestic parcel post offers a convenient, quick, and efficient means of transporting mailable parcels to any post office in the United States or its possessions. The service reaches more places than any other transportation agency

It brings producers and consumers into closer contact, thus opening the way to reducing the high cost of living. Special treatment and advantages are accorded to shipments of farm products weighing between 20 and 50 pounds. Low postage rates, based on the service rendered, are provided. The rates to nearby zones are particularly advantageous. Parcels may be insured against loss and may be sent C. O. D., and as special delivery matter.

Rates of postage on fourth-class or parcel post matter—to be fully prepaid—unsealed—are as follows:

(a) Parcels weighing 4 ounces or less, except books, seeds, plants, etc., 1 cent for each ounce or fraction thereof, any distance.

(b) Parcels weighing 8 ounces or less containing books, seeds, cuttings, bulbs, roots, scions, and plants, 1 cent for each 2 ounces or fraction thereof, regardless of distance.

(c) Parcels weighing more than 8 ounces containing books, seeds, plants, etc., parcels of miscellaneous printed matter weighing more than 4 ounces are chargeable, according to distance or zone, at the pound rates, a fraction of a pound being considered a full pound:

The regulations respecting the mailing of liquids are as follows: Liquids, not ardent, vinous, spirituous or malt, and not liable to explosion, spontaneous combustion, or ignition by shock or jar, and not inflammable (such as kerosene, naphtha, or turpentine) may be admitted to the mails for transportation within the United States. When contained in glass bottles or vials, such bottles or vials must be strong enough to stand the shock of handling in the mails, and must be enclosed in a metal, wooden or papier-mache block or tube not less than three-sixteenths of an inch thick in the thinnest part, strong enough to support the weight of mails piled in bags, and resist rough handling; and there must be provided, between the bottle and said block or tube, a cushion of cotton, felt, or some other absorbent sufficient to protect the glass from shock in handling; the block or tube to be closed by a tight-fitting lid or cover, so adjusted as to make the block or tube water-tight and to prevent the leakage of the contents, in case of breaking of the glass. When enclosed in a tin cylinder, metal case or tube, such cylinder, case or tube should have a lid or cover, so secured as to make the case or tube water-tight, and should be securely fastened in a wooden or papier-mache block (open only at one end), and not less in thickness and strength than above described. It would be well always to consult the postmaster in reference to the proposed mailing of liquids. The limit of admissible liquids and oils is the same as other fourth-class matter, or parcel post.

The name and address of the sender, preceded by the word "from," also the names and number (quantity) of the articles enclosed, may be written on the wrapper of fourth-class matter without additional postage charge. A request to the delivering postmaster may also be written asking him to return the package if not delivered.

#### **Registration.**

Postmasters shall register all mailable matter properly prepared and offered for that purpose except domestic matter of the fourth class.

(2) Money sent at the first-class rate and other valuable matter of the first, second, and third classes sent by mail should be registered.

The fee on registered matter, domestic or foreign, shall be 10 cents in addition to the postage for each letter or parcel, both to be fully prepaid by stamps affixed.

Each package must bear the name and address of the sender, and a receipt will be returned from the person to whom addressed, if required. Mail matter can be registered at all postoffices in the United States.

An indemnity—not to exceed \$50.00 for any one registered piece or the actual value of the piece if it is less than \$50.00—shall be paid for the loss of first class registered matter, and not exceeding \$25.00 in any one case of third-class mail matter.

#### **Domestic Money Orders.**

Domestic money orders are issued by money-order postoffices for any amount up to \$100, at the following rates:

For sums not exceeding \$2.50, 3 cents; over \$2.50, to \$5, five cents; over \$5 to \$10, eight cents; over \$10 to \$20, ten cents; over \$20 to \$30, twelve cents; over \$30 to \$40, fifteen cents; over \$40 to \$50, eighteen cents; over \$50 to \$60, twenty cents; over \$60 to \$75, twenty-five cents; over \$75 to \$100, thirty cents.

### Stamped Envelopes.

Embossed stamped envelopes and newspaper wrappers of several denominations, sizes and colors are kept on sale at postoffices, singly or in quantities, at a small advance on the postage rate. Stamps cut from stamped envelopes are valueless; but postmasters are authorized to give good stamps for stamped envelopes or newspaper wrappers that may be spoiled in directing, if presented in whole condition and with satisfactory evidence.

All matter concerning lotteries, gift concerns, or schemes devised to defraud the public, or for the purpose of obtaining money under false pretences, is denied transmission in the mails. Applications for the establishment of postoffices should be addressed to the First Assistant Postmaster-General, accompanied by a statement of the necessity therefor. Instructions will then be given and blanks furnished to enable the petitioners to provide the department with the necessary information.

The franking privilege was abolished July 1, 1873, but the following mail matter may be sent free by legislative saving clauses, viz:

1. All public documents printed by order of Congress, the Congressional Record and speeches contained therein, franked by members of Congress or the Secretary of the Senate, or Clerk of the House.
2. Seeds transmitted by the Secretary of Agriculture, or by any member of Congress, procured from that department.
3. All periodicals sent to subscribers within the county where printed.
4. Letters and packages relating exclusively to the business of the Government of the United States, mailed only by officers of the same, publications required to be mailed to the Librarian of Congress by the copyright law, and letters and parcels mailed by the Smithsonian Institution. All these must be covered by specially printed "penalty" envelopes or labels.
5. The Vice-President, Members and Members-elect; and Delegates and Delegates-elect to Congress may frank any mail matter, not over two ounces in weight, upon official or departmental business.

All communications to Government officers, and to members of Congress are required to be prepaid by stamps.

# RHEUMATISM

## A Home Cure Given By One Who Had It.

In the spring of 1893 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely. and it has never returned. I have given it to a number who were terribly afflicted and even bedridden wrth Rheumatism, and it effected a cure in every case.

I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your rheumatism, you may send the price of it, one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write to-day.

## Cured His Piles

Now 88 Years Old, But Works at Trade of Blacksmith and Feels Younger Since Piles are Gone.

The oldest active blacksmith in Michigan is still pounding his anvil in the town of Homer—thanks to my internal method for curing piles.

I wish that you could hear him tell of his many experiences with ointments, suppositories, etc., before he tried my method. Here is a letter just received from him:

Homer, Mich., June 27, 1917.

Mr. E. R. Page, Marshall, Mich.

Dear Sir: I want you to know what your treatment has done for me. I have suffered with piles for many years and used suppositories and all kinds of treatments, but never got relief until I tried yours. Am now completely cured. Although I am 88 years old, and the oldest active blacksmith in Michigan, I feel years younger since the piles have left me. I will surely recommend it to all I know who suffer this way. You can use my letter any way you wish, and I hope it will lead others to try this wonderful remedy.

Yours truly, J. L. LYON.

Don't let a doctor cut you and don't waste money on foolish salves, ointments, dilators, etc., but send today for a Free Trial of my Internal method for the Permanent Cure of Piles.

I especially want to send it to those apparently hopeless cases where all forms of salves, ointments, dilators and other local treatments have failed.

# THIN PEOPLE SHOULD TAKE PHOSPHATE

**Nothing Like Plain Bitro-Phosphate to Put  
On Firm, Healthy Flesh and to  
Increase Strength, Vigor  
and Nerve Force.**

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly

hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians

claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness, and lack of energy, which nearly always accompany excessive thinness, should soon disappear, dull eyes ought to brighten, and pale cheeks glow with the bloom of perfect health. Miss Georgia Hamilton, who was once thin and frail, reporting her own experience, writes: "Bitro-Phosphate has brought about a magic transformation with me. I gained 15 pounds and never before felt so well."

**CAUTION:**—Although bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not, owing to its tendency to increase weight, be used by anyone who does not desire to put on flesh.

# MEXICAN PLANT MAY CONQUER BRIGHT'S DISEASE

New York,—Physicians who have tested the sap of the Mexican maguey plant in the treatment of disease of the kidneys, believe that an important discovery has been made. Writing in *La Escuela de Medicina*, the leading Mexican medicine journal, the editor says: "It is the only substance known up to the present time, in the whole world, having the power to radically and permanently overcome Bright's Disease."

Reports of definite results in a large number of chronic and long standing cases of kidney trouble have created a persistent demand for this sap, which is popularly known under the name of AGMEL, and considerable quantities are being imported into the United States.

The Arrow Chemical Co., 71 Union Square, New York City, will mail to those interested, free booklet and literature, descriptive of AGMEL, and giving numerous medical opinions concerning its curative powers.

# POWER TO WIN

Means the possession of concentrative ability, a knowledge of human nature, conversational talent, will power, memory, personal magnetism. How these attributes may be acquired is explained in a wonderful little book entitled "PERSONAL POWER." Send 5 cents in stamps for a copy. Address: A. K. Koss, Sec. Progress League, 23 East 16th St., N. Y. City.

Remarkable Home Cure Given By One Who Had It—He

Send No Money—Just Your Address.

Years of awful suffering and misery have taught this man, Mark H. Shooting Through My Joints."**

"In the spring of 1893 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years.
